

# Make Smarter Decisions, Faster!

Data driven decisions are propelling manufacturing productivity, giving rise to more sophisticated software on the shop floor.

 **ShiftWorx**  
by FreePoint Technologies

## Measure. Analyze. Improve!

Measure your critical production areas with FreePoint's ShiftWorx solution. Our patented machine monitoring system cloud-connects equipment of any age, type or brand providing real-time data and actionable results.

# Top Reasons

## Why Manufacturers Leave Profits on the Shopfloor

1. Lack of machine data visibility rarely improves critical errors on the production floor
2. Shopfloor is disconnected from the front office
3. Insignificant training causes delays and exposes safety issues
4. Frequent unplanned downtime reduces production output

“

*“The total cost of unplanned downtime for all the process industries worldwide is easily in the range of **1 trillion.**”*

**International Society of Automation**  
Setting the Standard for Automation™

## Your Digital Transformation Solution Proven, and Paid Back in Months Not Years!

# Measure First

Start realizing continuous improvement with ShiftWorx software featuring patented technology that ensures all-encompassing data visibility.

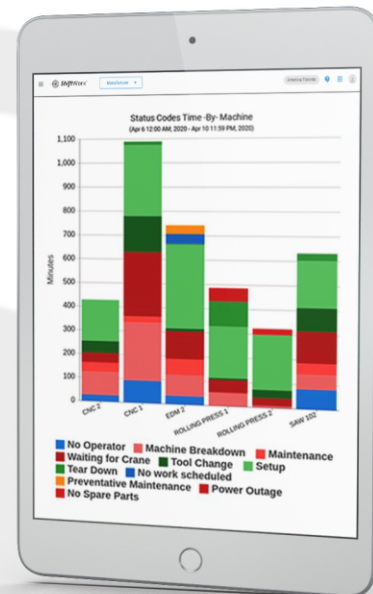

- Machine Connection
- Activity Monitoring Visualization
- Production Tracking
- Operator Narration Input

## Analyze Next

Continuous improvement measures are revealed from historical data. ShiftWorx features manufacturing KPI dashboard and report templates to provide quick visibility for machine or operator performance.

Create new custom dashboards, and reports specific to your needs including:

- Uptime / Downtime
- Downtime Explanation
- Counts
- Status Codes per Time Counts
- Scrap Waste
- Operator Notes
- Operator Hours per Machine
- And More!

## Then Improve!

Once it's known where opportunities exist for optimization, specific actions can be implemented to reduce downtime and maximize organizational communication.

- Production Scheduling
- Digital Checklists
- Digital Andon
- Notifications
- API Integration
- AI Reporting 

# **ShiftWorx** by FreePoint Technologies

Make smarter decisions faster with FreePoint's ShiftWorx, a shop floor optimization solution that enables efficiency and collaboration via visualized data that is essential for continuously improving manufacturing.

ShiftWorx's patented Industry 4.0 technology is deployable within days and paid back within months.
