

Background check solution now using Microsoft Team

3-2-1-GoCheck. Background checking: The new way!

New approach to background check. 3-2-1-GoCheck improves the verification process by keeping you in your flow of work now via Microsoft Teams.

Our updated background checking solution deliver SaaS benefits without the SaaS administrative problems.

What we offer

Background checking directly from Microsoft Teams.

Using Microsoft AI technology so client and candidate experiences are greatly improved. For example, all parties and across internal departments receive real-time updates

All the security benefits using Microsoft standards. Our solution meets current industry security standards

3-2-1-GoCheck solution helping reduce the HR administration and support more collaborative process across the departments.

Achieve speed to business value by transacting via Microsoft Marketplace or Appsource or a private offer

What our customers are saying

„Ortecha is a specialist consultancy dedicated to helping companies enable and exploit data. We have clients across many sectors, with a strong presence in Financial Services across UK, USA and Europe. Our team must pass the highest checking standards both in terms of scope and quality. Our partnership with 3-2-1-GoCheck meets all the required standards.“

Stuart Woodward,
Partner, Ortecha

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
