

2 Week: Azure Health Assessment

Azure Health Assessment Details

Engage

- We will begin by understanding the goals and objectives for your environment. We will review your data sources and security monitoring practices. We will require read-access to your Azure subscriptions

2-hour remote workshop

Assess

- Grant Thornton will monitor your Azure consumption over a six business day period and identify areas of optimization, performance, and configuration trends

6-day monitoring

Recommend

- Grant Thornton professionals will meet with you to share our findings and provide recommendations based on best practice. We will deliver a clear roadmap to articulate what steps your organization should take to ensure it is maximizing its Azure environment

2-hour remote meeting

Health Assessment Includes:

Trend Reporting

We will provide you with a report that illustrates the trends in your Azure environment.

Security Monitoring

Our information security professionals will assess the risk and control profile associated with your Azure environment, inclusive of regulatory requirements that may exist for your industry and provide a set of recommendations for how you can be more secure.

Configuration Optimization

We will provide you with a set of recommendations for your consideration which articulate a mechanism to optimize your Azure spend by configuring your environment optimally.

Cost

Grant Thornton will need to assess cost on a case-by-case basis to ensure that your needs are appropriately met through resource allocation. In general, we find that \$25,000 reflects the average cost for most organization to complete an assessment.

Next Steps

Please complete the contact form in the Azure Marketplace. We respond to customer inquiries within 48 business hours.

About GT

Today, Grant Thornton LLP is the U.S. member firm of Grant Thornton International Ltd, one of the world's leading organizations of independent audit, tax and advisory firms. These firms help dynamic organizations unlock their potential for growth by providing meaningful, forward-looking advice. Proactive teams, led by approachable partners in these firms, use insights, experience and instinct to understand complex issues faced by privately owned, publicly listed and public sector clients and help them to find solutions. More than 42,000 Grant Thornton people, across more than 120 countries, are focused on making a difference to clients, colleagues and the communities in which we live and work.
