Distribution / Manufacturing / Insurance Industry

Leaf

Challenges

- Current processes are siloed within departments
- Lack of visibility into number of people performing inefficient, manual processes
- No documented, cohesive plan for a business unit to achieve an improved state

Implementing our SureStart program in collaboration with your key leaders results in the identification of issues within your organization and development of a structured problem-solving document adopted by the entire company.

Ideal Solution

Delivery of documentation including:

- Roadmap to an improved state
- Improved Processes
- Key Recommendations

We facilitate design and discovery sessions to document current and future processes impacting the business. We work with you to define and document key processes that impact your business.

Desired Outcomes

By using the SureStart business improvement process, Leaf helped us determine the right path forward to build our business. Instead of throwing software at a problem, we first identified our needs and built a cohesive roadmap.

- Define and document key processes
- Implementation roadmap
- A path forward to the Improved State

Software to Solve Your Business Problems

Discover

Collaborative Discovery Sessions

- Facilitate discovery sessions
- Observe and listen to your needs

Document

Current and Future Processes

- Define key objectives
- Document key processes

Deploy

Work Towards an Improved State

- Build a roadmap
- Prioritize defined processes

We solve problems and deliver solutions that result in an increased value in your business. We'll focus on the process you want to transform and find the right solution for you, regardless of technology. Because Leaf is a principle-centered organization, our team creates value in every collaborative project we encounter through our core principles of Fairness, Kindness, Effectiveness, and Significance.

Leaf Software Solutions SureStart + Microsoft

Is your organization suffering from a lack of visibility, manual processes, and no documented, cohesive plan to improve? With the Leaf SureStart collaborative process, backed by Microsoft, you'll receive an implementation roadmap - a clearly documented plan towards your improved state.

SureStart

Discover
