

## Microsoft Teams App Solution Workshop

Teams is the hub that brings digital work into one place. That means it's more than just IM, collaboration, meetings, and calling. By connecting other business apps, the hub gains value. That value excels when organizations create and integrate unique apps that provide a competitive edge. With the Teams Apps and Solutions Workshop, learn about low-code/no-code solutions to raise your Teams productivity to new heights.

### Preparation

- Understand business vision/goals
- Identify business stakeholders
- Define and review scenarios to increase productivity through process automation within Teams

### Envision

- Identify opportunities to reduce latency and waste
- Illustrate the capability of Teams apps through demos and discussions of Enabling's prebuilt apps
- Educate through showing example code of Enabling's prebuilt apps

### Design & Planning

- Build an implementation plan including timelines and next steps
- Provide App Governance guidance
