

# Teams Room Systems Deployment Services

## When Your Video Calls Need to be Perfect, Call Us

As a Gold-Certified Microsoft Partner, Magenium has deployed Microsoft Teams Room Systems for 75+ organizations of all sizes since 2017. Our advanced team of engineers and consultants have helped customers deploy in all room sizes and shapes. We have expertise in:

- Teams adoption, governance, and training
- Teams Meeting Workshops (delivered virtually)
- Kitted Teams Rooms
- Room InterOperability
- MTR product bundles from Crestron, Poly, Logitech and Yealink
- Ongoing Room System management

In light of the Covid-19 outbreak, Magenium has continued to deliver projects quickly from our virtual offices. We assist customers in all aspects of a Teams Room system rollout from selling the devices rooms will need to choosing the right licensing plan. It does not matter what stage of the rollout the customer is at, we have the skills and expertise to handle green field to containing the sprawl of an unplanned rollout.

**For any organization looking to deploy Teams Room Systems quickly, we are the one-stop shop for all Teams hardware, licensing, services and support.**
