

MDM Health Check

MDM Health Check

Learn about misconfigurations and security gaps, receive an audit report from a trusted third party, and get a plan to improve your MDM environment.

- ✓ Identify Misconfigurations
- ✓ Receive an Audit Report
- ✓ Understand your setup

“ Very thorough, very impressive, and very helpful. I like that you summed it all up for us and it is very clear what our next steps are.

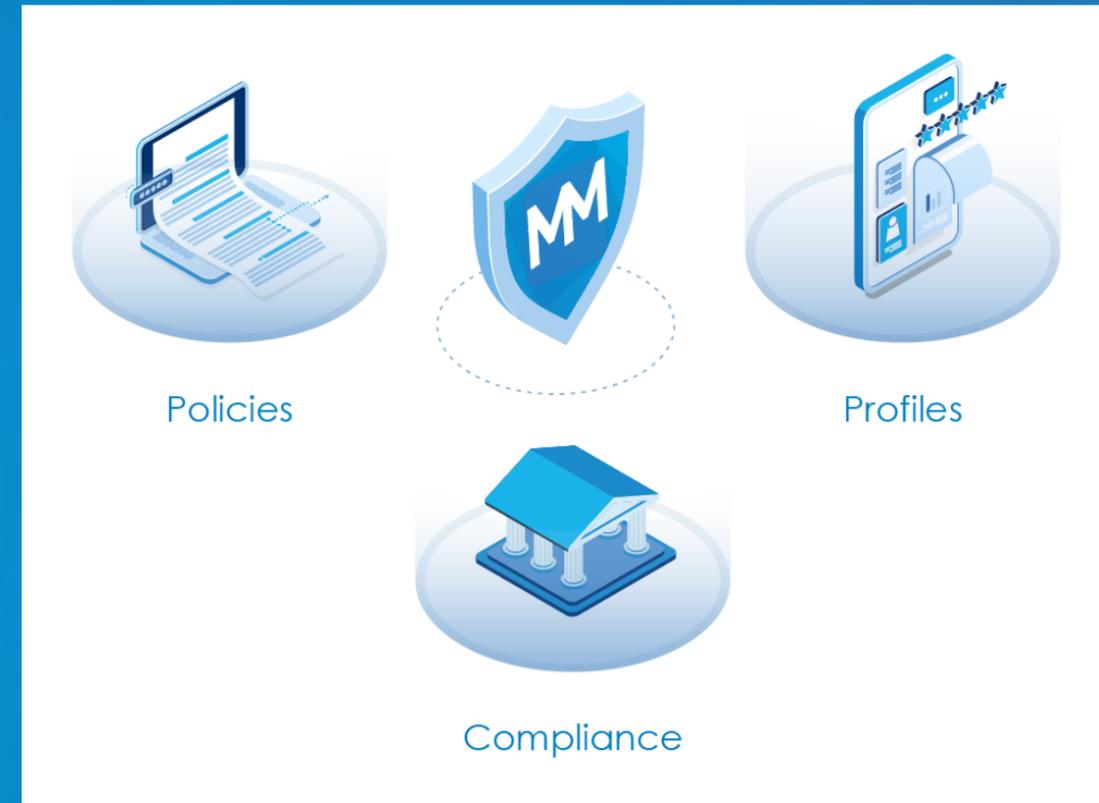

Mike Kinkade
Senior Security Manager
Cumberland

Audit your MDM to check its health

Companies are relying on MDM solutions to provide mission critical device management for their employees.

But misconfigurations and gaps are common and are often discovered only after an adverse event has occurred.

MDM Health Check provides you with insight into your current environment, an audit report, and a detailed action plan on how to tune-up your MDM environment

Improve your User Experience

Your employees need to work on any device, anytime, anywhere. You need to ensure your MDM isn't a source of frustration or a bad user experience but don't want to lose control of company information.

The MDM Health Check will allow you to balance your employee experience with endpoint security requirements.

Move your users from frustrated to happy with an MDM Health Check

How it works

1 Step One Discover

Analysis of your current policies, profiles and compliance rules.

Analysis of integration points and technical dependencies.

2 Step Two Audit

Identify gaps and areas for technical improvement.

Workshop to review our findings and draft recommendations.

3 Step Three Report

Report with action plan to remediate and resolve the issues identified.

Review and debrief to clarify issues and discuss options for remediation.

Learn more about Mobile Mentor

“ **SCCM was cumbersome and at times difficult to work with, Intune is much easier to manage updates and installations and since moving to Intune have found we no longer need SCCM.**

- Bryan Berg, IT Systems Administrator, Alive Hospice

Case Studies

“ **We know we can rely on Mobile Mentor for outstanding support and management of our mobile users, devices and connections as well as their valuable input in our mobility strategy.**

- Bryce Johnson, Chief Technology Officer, Ministry for Primary Industries

Insights

“ **Mobile Mentor have demonstrated a high level of technical knowledge and expertise across all aspects of their engagement with NZ Customs. In addition, the Mobile Mentor team brought a professional, flexible and supportive approach and worked effectively with the NZ Customs team to deliver an excellent outcome.**

- Brendan McMullan, Office 365 Migration Programme Manager, NZ Customs
