workspee

The Premier Communication & Collaboration Tool
for Education Sector

Our Story

What Inspired us to Develop Workspee as a Collaboration Tool for Education?

The development of our brand is largely influenced by the ever-demanding need for remote learning amid digital transformation. After assessing the market situation, we realized that there was a huge gap in the education sector that needed to be filled.

Educational institutions were facing great disconnectivity in remote learning. Teachers were finding it hard to collaborate with the students owing to the absence of an all-inclusive centralized platform. Students had to switch between different apps to communicate and perform academic tasks.

We conceptualized the idea of Workspee to address this concern. The main philosophy behind its inception was to offer a one-stop solution to centralize the information sources and keep communication between the teachers and students highly engaging. Everybody can collaborate better and learn faster under one platform – Workspee!

Why **Work**spee?

Workspee makes everything simpler and easier by connecting teachers and students together wherever they are.

It helps to:

- Scale Up Online Learning & Keep Academic Activities On Track.

- Expedite Communication Process to Keep Students Engaged.

- Promote Peer Socialization and Healthy Debates on Discussion Forums.

- Conduct Online Classes in a Live Environment .

- Harness Educational Collaboration to Augment the Learning Process.

When I joined as Head of the Academics, I faced challenges to keep my academic staff motivated. Now, I acknowledge their efforts through Workspee's recognition feature. Our administration creates events and sends invites to faculty members to keep them on board.

Mark Cooper
Head of Academics

Workspee has enabled me to quickly and conveniently share materials and resources with my students. I monitor their progress in each subject with a few clicks. Online collaboration with faculty members on academic issues is no less than a revolution in the Education sector.

Dave Anderson
Teacher

Workspee has made our lives easier because now we can keep academic work organized. It saves our valuable time, offers discussion forums, and group chat features to debate on resolving research problems with other classmates.

Features

We offer multiple advanced features for an ultimate e-learning experience.

- General Newsfeed
- Forums
- One on One Chat
- Group Chat
- Video Calls
- Live Streaming
- Group Newsfeed
- Knowledge Center

- Fundraising
- Polls
- Perks
- Recognition
- Events
- Photo Gallery
- Alumni Network

General Newsfeed

Post social and academic activities in the newsfeed on daily-basis and interact with others. A viable option for the students, teachers, and the administrative staff to stay updated. Keep everyone engaged as they post personal pictures and comment on others' posts and videos.

Topic	Latest Post	Replies	Views

Question and Answer Forum Specifically designed for the students to post general questions regarding academic issues.	Charlie By Charlie 1 week ago	6
Chemistry Final Project Forum Discuss all possible ideas and topics related to the final project of Chemistry with the course instructor.	Amelia By Amelia 1 week ago	1
Scholarship Forum Discuss prospects and tips on how to get academic scholarships. Share valuable insights.	Andrew By Amelia 1 week ago	1

Forums

A platform for the students to hold discussions on any topic or assignment given by the instructor. Share different ideas and receive input from friends or teachers to resolve problems. Using this feature can improve communication skills and offer group exposure.
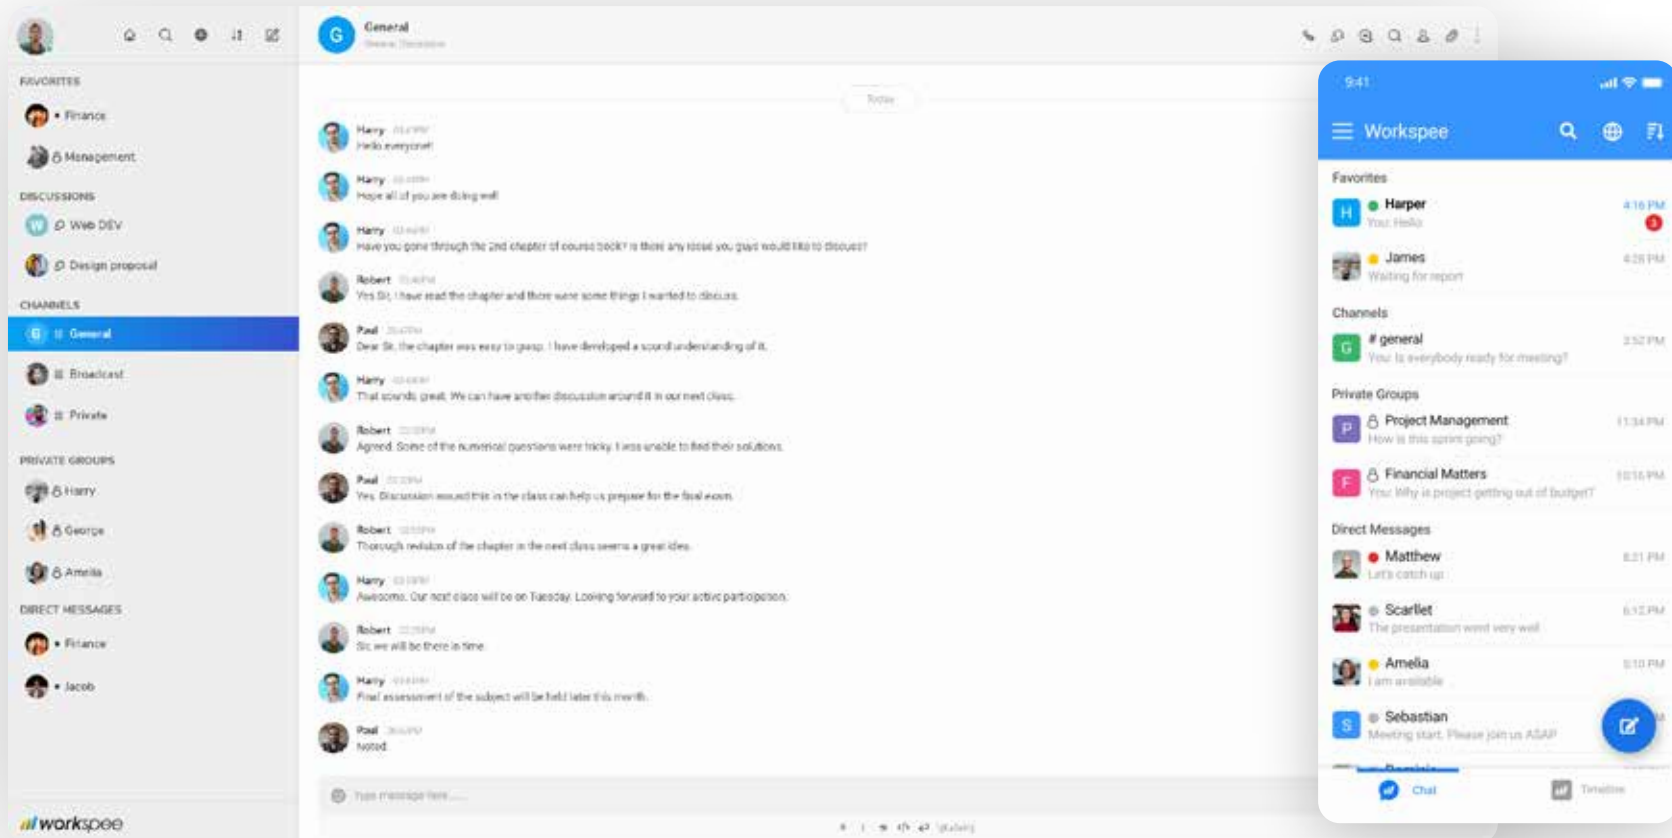

Workspee Chat

One on One Chat

Students can directly communicate with the teachers to resolve their queries.

Group Chat

Academic staff and students can engage in group conversations related to specific subjects.
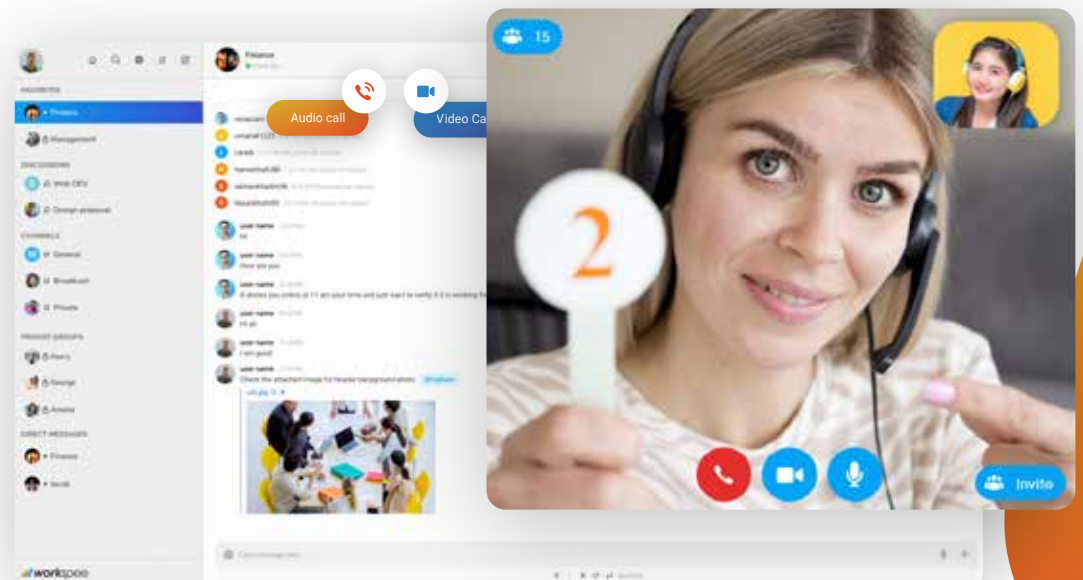

Live Streaming

Live events such as seminars and conferences can be remotely covered and made accessible to all the students. Live podcasts from the field experts can also be conducted to create an ultimate e-learning experience for the students. The teachers can stream live seamlessly from their desktop or mobile devices.
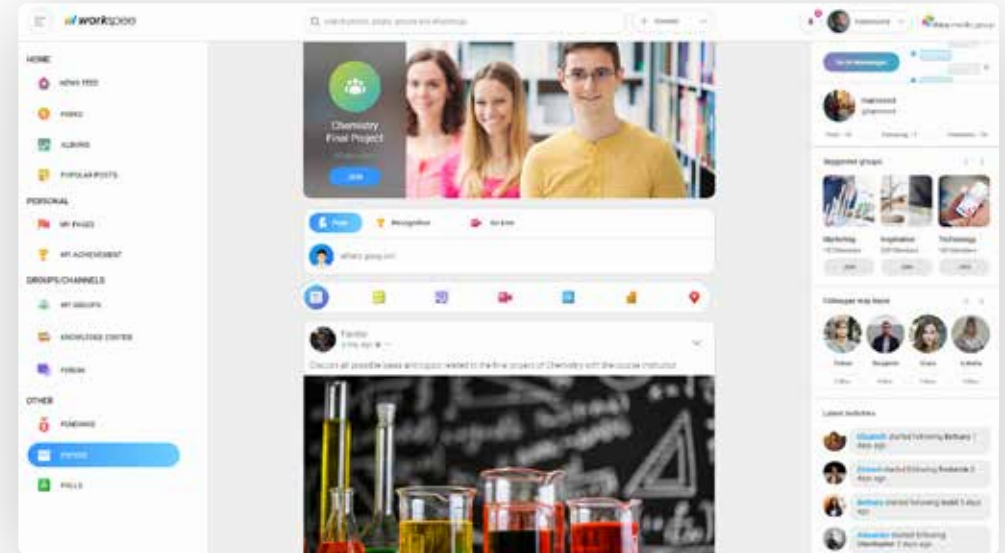

Video Calls

The video call feature allows teachers to conduct classes remotely and communicate with students in a live environment. Institutes can even hold virtual meetings, and participants can present their ideas by sharing the screen. Through the video call option, the e-learning experience can be simplified.

Group Newsfeed

Besides the general newsfeed, you can also access a group-specific newsfeed to get all the latest updates regarding a subject or an ongoing project. People who are part of a micro-group can access group newsfeed and share their insights. Students in a class can report back task progress to their teachers.

Knowledge Center

Workspee Knowledge Center can also be called a 'Mini Library' where students can access relevant course materials. Both teachers and students can share articles in the Knowledge Center. The exchange of information, documents, and research papers can help cultivate a Knowledge-Sharing Culture.

Fundraising

Workspee's fundraising feature can be used to raise funds which can be used to improve the institute's educational facilities. Funds can also be spent on serving a noble cause or helping the needy students. This can be done by setting up a separate page along with visual descriptions.

Polls

Instead of relying on lengthy questionnaires, the institute's administration can quickly ask a few questions in a visually appealing poll that can conveniently be responded to, with a single click. Polls can be made attractive by adding relevant pictures to them. Their results can easily be tracked down and analyzed.

Title   Find People

Say Something

Recognition

Don't let any hard work of the academic staff go unrecognized. Post their achievements online so others can instantly acknowledge them. This results in extra motivation and makes it easy for the teachers to achieve future goals.

Events

Create events through this unique feature and send out invites to the teachers, students and administrative staff. It minimizes the risk of missing out on attending the events. Participants can receive notification about the time, date and place of the event.

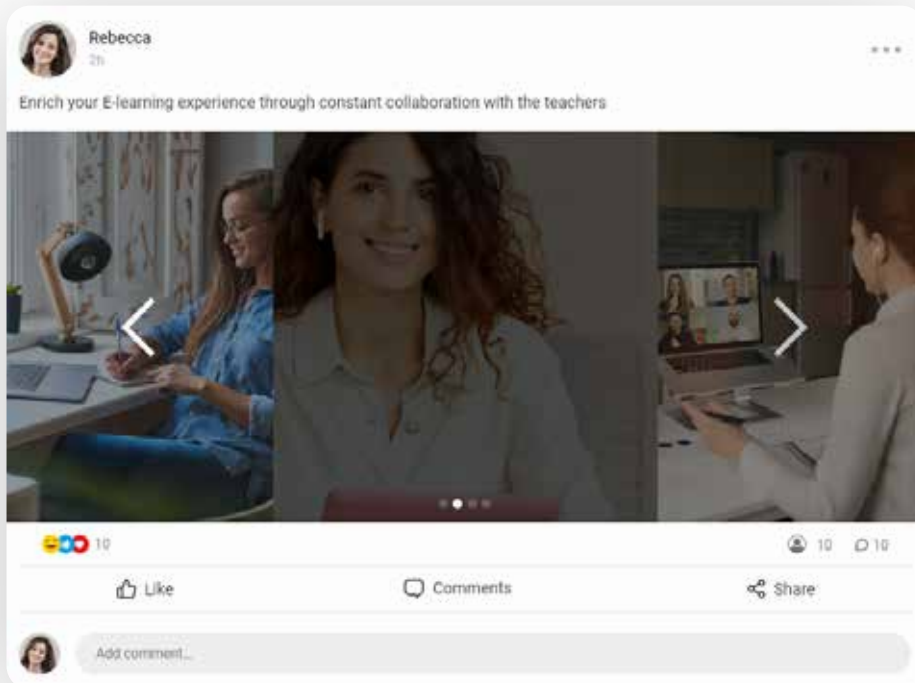

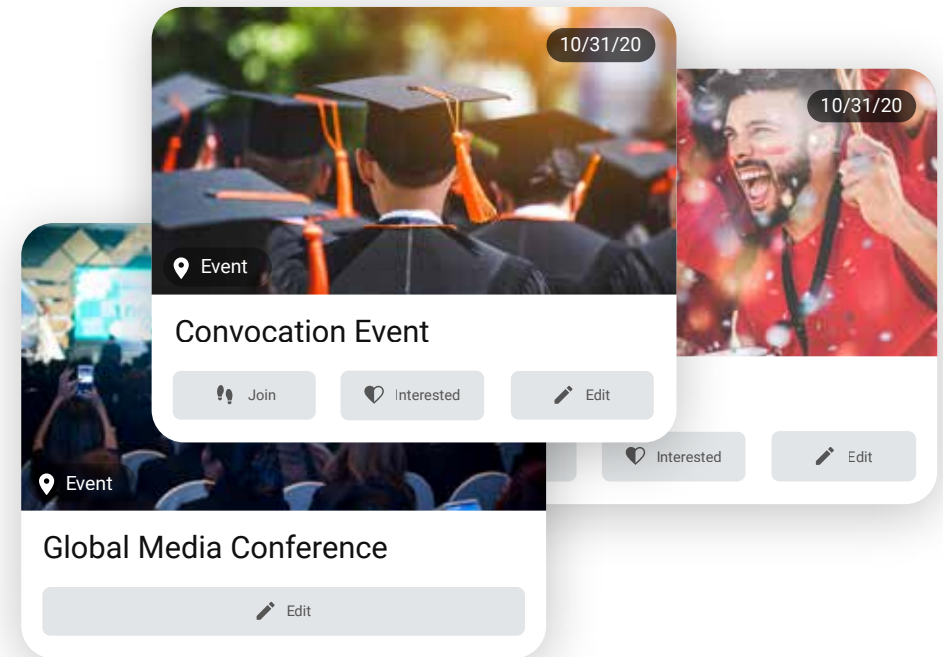

Photo Gallery

Upload and save your photos as long as you want. Easily share them with others on the newsfeed to create unforgettable memories. An awesome way to mark special occasions by making a collection of photos that reflect brilliance.

Alumni Network

Educational institutions want to passionately connect with alumni. Workspee provides a specialized platform to hold virtual events in their honour. We understand how important it is for the educational institutions to keep in touch with the alumni. Workspee helps them stay connected to the alumni through certain groups and disseminate relevant information or even record their testimonials.

Power Packed Features

Workspee is a secure online collaboration tool that enables straightforward communication between different departments in an educational institution. It offers you the option to control notifications and broadcast informative alerts through a single click. Integrate all the data from your apps into Workspee.

Broadcast Alerts

Broadcast informative alerts, updates, reminders and events via push messages or emails through a single click.

Notification Controls

Control the push message notifications that pop on your mobile or desktop to avoid unnecessary interruptions.

Secure

We protect your data with encryption in transit and at rest and provide administrative controls to enforce institute-wide protection such as SOC 2, ISO 27001 certified, and fully GDPR compliant.

Integrations

Begin your journey of two-way sync that enable team's work in one place and integrate all the data from your apps into Workspee.

Native Mobile Apps

Begin your two-way sync journey that enables a group's work in one place and integrates all the data from your apps into Workspee.

Powerful User Management

Workspee offers group admins a centralized dashboard to set the privacy settings for different groups related to various departments of an educational institute. Here you have access to user management controls. They can be used to grant or restrict access to a set of users/groups.

Dashboard

An effective reporting tool to monitor and analyze data related to your academic profile.

Manage users

Manage users, activities and settings from a single platform and gain valuable insight.
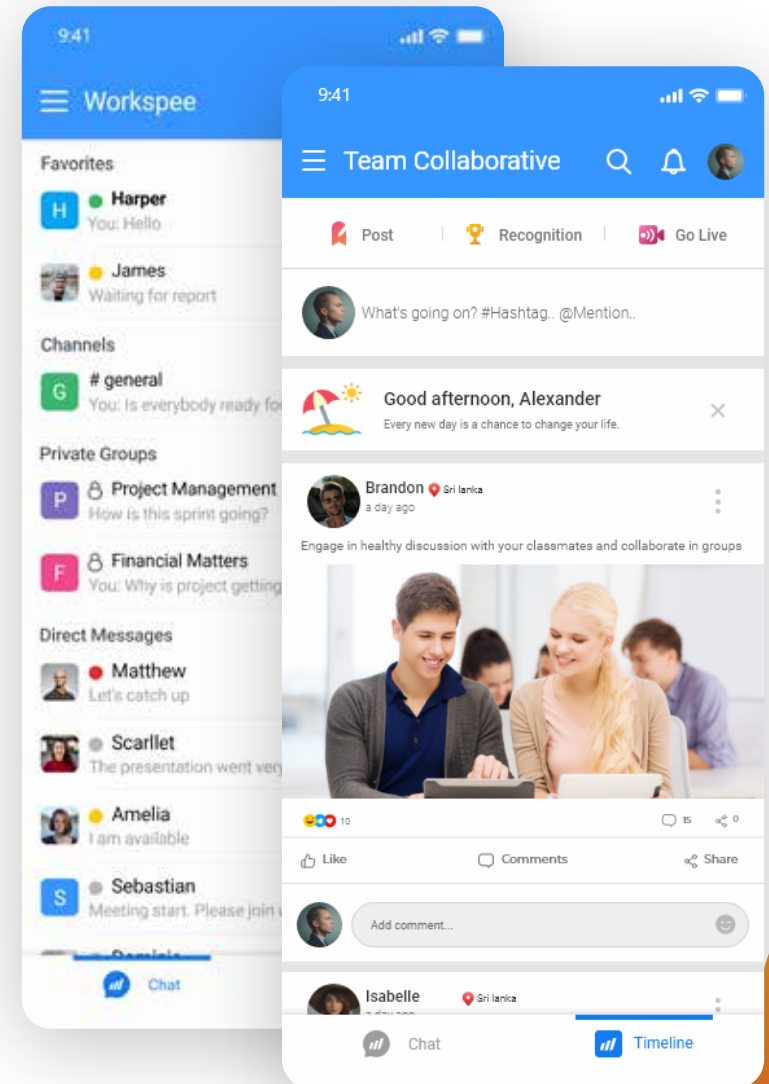

Settings

Change user and admin settings as you want.

Mobile App

Workspee offers apps exclusively designed for all the iOS and Android devices.

Stay updated with the trending news feed, group activities, achievements, events, etc. and chat directly or in the channels from anywhere you are.
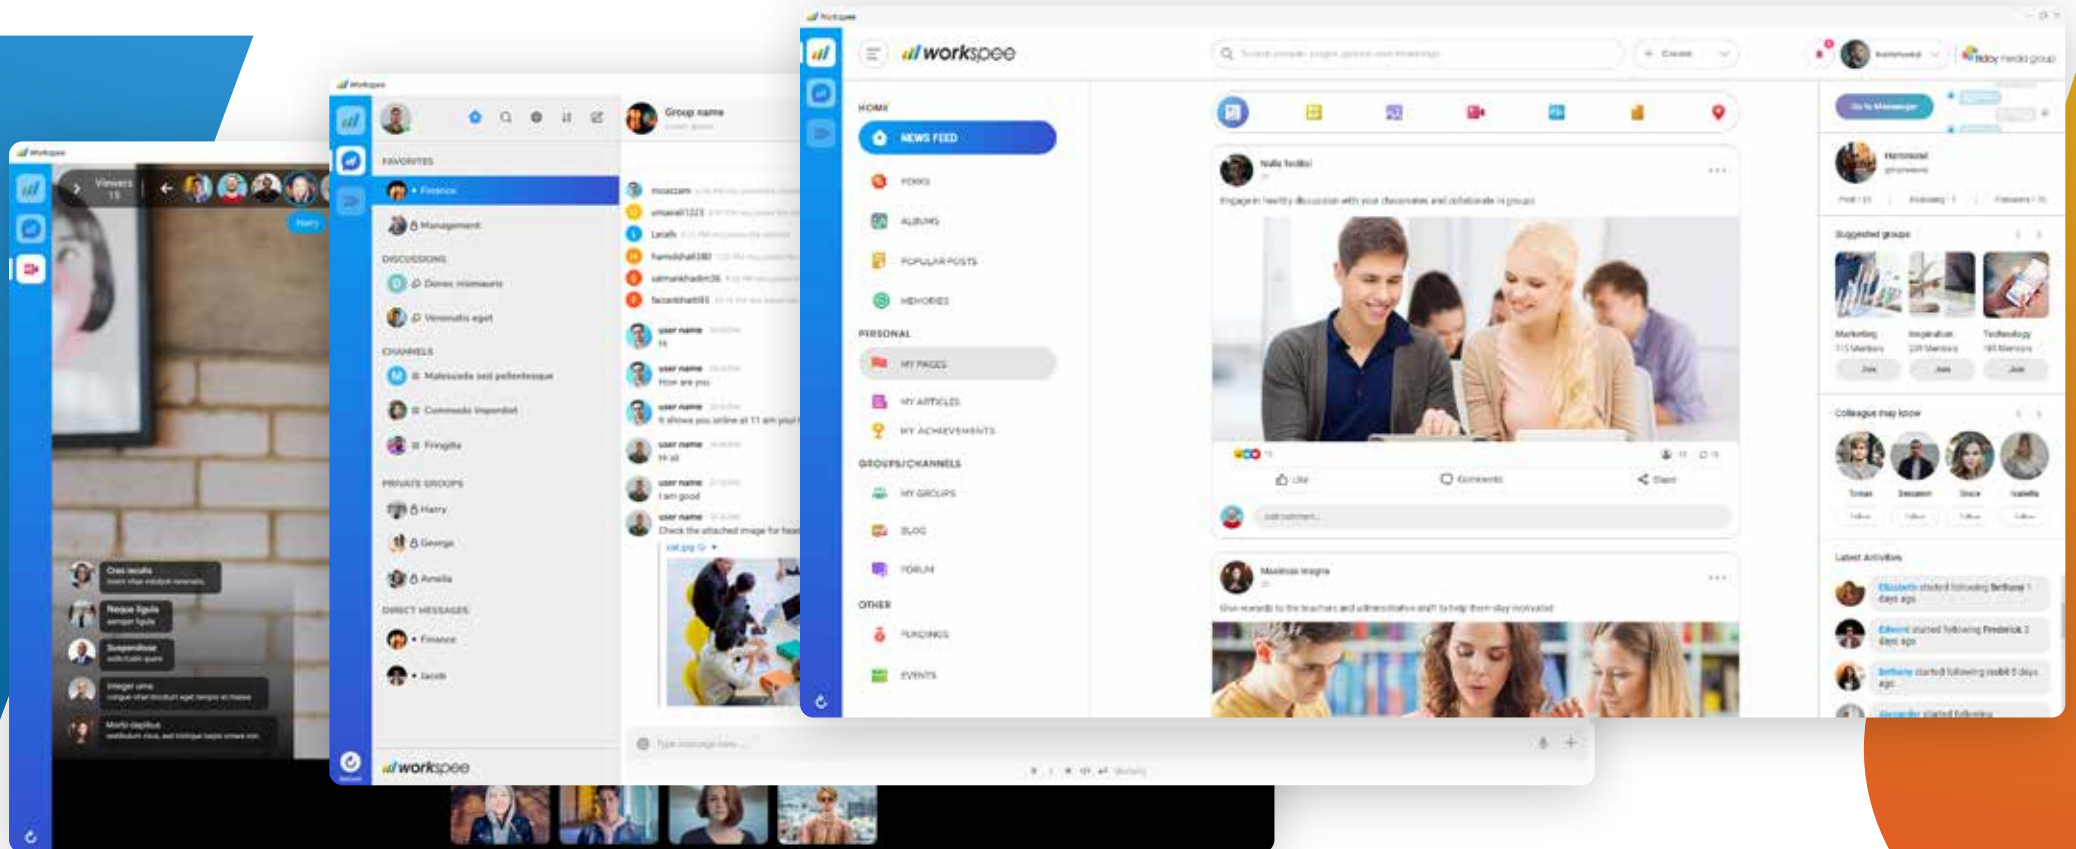

**Download links**   App Store   Google play

Desktop app

Sign in to the Workspee's desktop app and instantly connect with all students and the teachers.

Workspee's desktop app offers a highly interactive and visually appealing interface and helps seamlessly switch between timeline and the chat with a single click.
