

Información reglamentaria

Este dispositivo no está diseñado para usarse en aplicaciones mecánicas, médicas o industriales. Cualquier cambio o modificación no aprobado expresamente por Microsoft podría anular la autoridad del usuario para utilizar este dispositivo. Este producto debe usarse con equipos informáticos incluidos en la lista de NRTL (UL, CSA, ETL, etc.) y/o que se ajusten a la normativa IEC/EN 60950-1 o IEC/EN 62368-1 (con la marca CE). No se incluyen piezas reparables. Este dispositivo se clasifica como producto comercial para un funcionamiento entre +0 °C y +35 °C.

Desecho de baterías usadas y equipos eléctricos y electrónicos

Este símbolo en el producto, sus baterías o su embalaje significa que el producto y las baterías que contiene no se deben desechar con los residuos domésticos. En cambio, es su responsabilidad entregar estos artículos a un punto de recolección adecuado para el reciclaje de las baterías y los equipos eléctricos y electrónicos. Esta recolección separada y reciclaje ayudarán a conservar los recursos naturales y a evitar posibles consecuencias negativas para la salud humana y el medio ambiente debido a la posible presencia de las sustancias peligrosas de las baterías y los equipos eléctricos y electrónicos, que podría producirse debido a un desecho inadecuado. Para obtener más información sobre dónde dejar sus baterías y los equipos eléctricos y electrónicos, póngase en contacto con su oficina municipal local, el servicio de desecho de residuos domésticos o la tienda en la que compró el producto. Para obtener más información sobre WEEE y el desecho de baterías, póngase en contacto con eRecycle@microsoft.com. Los productos recargables contienen una batería de iono de litio.

Clientes en Estados Unidos y Canadá

Modelos: 1725, 1769, 1782, 1793, 1795, 1796, 1807, 1813, 1824, 1825, 1832, 1834, 1835, 1853, 1864, 1866, 1867, 1868, 1872, 1873, 1876, 1899, 1900, 1901, 1905, 1907, 1908, 1909, 1926, 1927, 1943, 1950, 1951, 1952, 1953, 1958, 1959, 1960, 1961, 1979

Parte responsable: Microsoft Corporation, One Microsoft Way, Redmond, WA 98052, USA.
Email: regcomp@microsoft.com

Este aparato digital de Clase B cumple con la Parte 15 de las normas de la Comisión federal de Comunicaciones (FCC) de EE. UU. las normas RSS exentas de licencia de la Comisión Federal de Comunicaciones (FCC) de los EE. UU., Innovación, Ciencia y Desarrollo Económico (ISED) de Canadá. El funcionamiento se encuentra sujeto a las siguientes dos condiciones: (1) este dispositivo no debe causar interferencia, y (2) este dispositivo debe aceptar cualquier interferencia recibida, incluso la interferencia que pueda causar un funcionamiento no deseado.

Cualquier cambio o modificación a este dispositivo no aprobado expresamente por Microsoft podría anular la autoridad del usuario para utilizar el dispositivo.

Reglamentos sobre interferencias de radio y televisión

Los dispositivos de hardware de Microsoft pueden emitir energía de radiofrecuencia (RF). Si no se instala y usa estrictamente según las instrucciones que se indican en la documentación impresa o los archivos de ayuda en pantalla, el dispositivo puede provocar interferencias perjudiciales con otros dispositivos de radiocomunicaciones (por ejemplo, radios AM/FM, televisores, monitores de bebé, teléfonos inalámbricos, etc.). Sin embargo, no se garantiza que no se producirán interferencias de radiofrecuencias en una instalación concreta. Para determinar si el dispositivo de hardware está provocando interferencias en otros dispositivos de radiocomunicaciones, apague y desenchufe el dispositivo de la Fuente de alimentación externa. Si la interferencia desaparece, es probable que el dispositivo sea la causa. Si este dispositivo de hardware provoca interferencias, pruebe las siguientes medidas para remediar la situación:

- Cambie la ubicación de la antena del otro dispositivo de radiocomunicaciones (por ejemplo, radios AM/FM, televisores, monitores de bebé, teléfonos inalámbricos, etc.) hasta que desaparezca la interferencia.
- Aleje el dispositivo de hardware de la radio o el televisor, o muévelo al otro lado de estos aparatos.
- Conecte el dispositivo a una toma de corriente diferente, de modo que el dispositivo de hardware y la radio o televisor se encuentren en circuitos diferentes, controlados por disyuntores o fusibles diferentes.
- Si fuera necesario, consulte con el distribuidor del dispositivo o un técnico experimentado en radiotelevisión para obtener sugerencias adicionales. Para obtener más información sobre los problemas de interferencias, visite el sitio web de la FCC en: <https://www.fcc.gov/cgb/consumerfacts/interference.html>. También puede llamar a la FCC al 1-888-CALL FCC para solicitar fichas técnicas sobre la interferencia y la interferencia telefónica.

CAN ICES-3 (B)/NMB-3(B)

Exposición a la energía de radiofrecuencia (RF)

Este dispositivo contiene transmisores de radio Wi-Fi y Bluetooth y se ha diseñado, fabricado y probado para cumplir las directrices de la Comisión federal de Comunicaciones (FCC), los requisitos de Innovation, Science and Economic Development Canada y las normativas europeas para la exposición RF y el índice de absorción específica.

Modelos 1793, 1796, 1807, 1824, 1825, 1832, 1866, 1876, 1899, 1900, 1901, 1926, 1927, 1960, 1961: Para garantizar que la exposición a la energía RF generada por los radiotransmisores no supera los límites de exposición que establecen estas directrices, oriente el dispositivo que modo que el lado de la pantalla no

esté en contacto directo con su cuerpo, por ejemplo, con el lado de la pantalla boca abajo en el regazo o en la parte superior de tu cuerpo. La información de SAR del producto está disponible en [sar.microsoft.com](https://www.microsoft.com).

Modelo 1707: Este equipo se debe instalar y usar con una distancia mínima de 20 cm entre el radiador y el cuerpo.

La información de SAR del producto está disponible en sar.microsoft.com.

Encontrará información adicional sobre la seguridad de RF en los siguientes vínculos:

Sitio web de la FCC: <https://www.fcc.gov/general/radio-frequency-safety-0>.

Sitio web de Innovation, Science and Economic Development Canada en: <https://www.ic.gc.ca/eic/site/smt-gst.nsf/eng/sf01904.html>

El funcionamiento de este dispositivo en la banda 5150 a 5250 MHz es solo para uso en interiores para reducir el potencial de interferencias perjudiciales a sistemas de satélites móviles de canal compartido. Se recomienda a los usuarios que los radares de alta potencia se asignan como usuarios principales (por ejemplo, usuarios de prioridad) de las bandas 5250 a 5350 MHz y 5650 a 5850 MHz, y que estos radares pueden causar interferencias o daños a los dispositivos LE-LAN.

Para clientes de México

La operación de este equipo está sujeta a las siguientes dos condiciones: (1) es posible que este equipo o dispositivo no cause interferencia perjudicial y (2) este equipo o dispositivo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operación no deseada.

Rastree su dispositivo perdido o robado: aka.ms/find-lost-windows-device.

Dispositivos LTE: para localizar su IMEI, siga estas instrucciones. Vaya a la configuración de su **dispositivo, red, celular, configuración avanzada, IMEI**.

Etiquetas FCC y ISED

Model: 1725 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1769 FCC ID: C3K1769 IC: 3048A-1769 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1782 FCC ID: C3K1782 IC: 3048A-1782 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1793 FCC ID: C3K1793 IC: 3048A-1793 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1795 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1796 FCC ID: C3K1796 IC: 3048A-1796 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1807 FCC ID: C3K1807 IC: 3048A-1807 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1813 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1824 FCC ID: C3K1824 IC: 3048A-1824 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1825 FCC ID: C3K1825 IC: 3048A-1825 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1832 FCC ID: C3K1832 IC: 3048A-1832 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1834 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1835 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1853 FCC ID: C3K1853 IC: 3048A-1853 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1864 FCC ID: C3K1864 IC: 3048A-1864 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1866 CAN ICES-3 (B)/NMB-3(B) Contains: FCC ID: C3K1866 as a change of ID to FCC ID: PD9AX201D2, Contains IC: 3048A-1866

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1867 FCC ID: C3K1867 IC: 3048A-1867 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1868 FCC ID: C3K1868 IC: 3048A-1868 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1872 FCC ID: C3K1872 IC: 3048A-1872 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1873 FCC ID: C3K1873 IC: 3048A-1873 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1876 FCC ID: C3K1876 IC: 3048A-1876 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model 1901, CAN ICES-3 (B)/NMB-3(B), Contains FCC ID C3K1901 as Change of ID to PD9AX200D2L,
Contains IC 3048A-1901

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1905 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model 1907, Model 1899, CAN ICES-3 (B)/NMB-3(B), FCC ID: C3K1899, IC: 3048A-1899, Contains FCC ID
C3K1957 as Change of ID to FCC ID: PD9AX201D2, Contains IC: 3048A-1957

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model 1908, Model 1900, CAN ICES-3 (B)/NMB-3(B), Contains FCC ID C3K1900 as Change of ID to FCC
ID: PD9AX201D2, Contains IC: 3048A-1900

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model 1909, Model 1900, CAN ICES-3 (B)/NMB-3(B), Contains FCC ID C3K1900 as Change of ID to FCC
ID: PD9AX201D2, Contains IC: 3048A-1900

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference

received, including interference that may cause undesired operation.

Model 1926, CAN ICES-3 (B)/NMB-3(B), FCC ID: C3K1926, Contains FCC ID C3K1901 as Change of ID to PD9AX200D2L, IC 3048A-1926, Contains IC 3048A-1901

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model 1927, CAN ICES-3 (B)/NMB-3(B), FCC ID: C3K1927, Contains FCC ID C3K1956 as Change of ID to PD9AX200D2L, IC 3048A-1927, Contains IC 3048A-1956

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1943 CAN ICES-3 (B)/NMB-3(B) Contains: FCC ID: C3K1943 as a change of ID from FCC ID : PD9AX201D2, Contains IC: 3048A-1943

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1950 FCC ID: C3K1950, IC: 3048A-1950 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1951 FCC ID: C3K1950, IC: 3048A-1950 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1952 FCC ID: C3K1952, IC: 3048A-1952 CAN ICES-3 (B)/NMB-3(B) This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1953, FCC ID: C3K1952, IC: 3048A-1952 CAN ICES-3 (B)/NMB-3(B) This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1958 FCC ID: C3K1958, IC: 3048A-1958 CAN ICES-3 (B)/NMB-3(B) This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1959 FCC ID: C3K1958, IC: 3048A-1958 CAN ICES-3 (B)/NMB-3(B) This device complies with part

15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1960 CAN ICES-3 (B)/NMB-3(B) Contains: FCC ID: C3K1960 as a change of ID from FCC ID : PD9AX201D2, Contains IC: 3048A-1960.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1961 CAN ICES-3 (B)/NMB-3(B) Contains: FCC ID: C3K1961 as a change of ID from FCC ID : C3K1985/PD9AX201D2L, Contains: FCC ID: C3K1988 as a change of ID from FCC ID : C3K1986/XMR201901EM12G, Contains IC: 3048A-1961, Contains IC: 3048A-1988

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Model: 1979 FCC ID: C3K1979, IC: 3048A-1979 CAN ICES-3 (B)/NMB-3(B)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
