# ManufacturingCONNECT Accelerator

## Accelerate Your ERP Project

*Implement Dynamics 365 for Operations...FASTER!*

Dynamics 365 for Operations helps manufacturers work smarter and fuel business growth. The ManufacturingCONNECT Accelerator by MCA Connect provides all the power and flexibility of Dynamics 365 - implemented in a faster timeframe.

The ManufacturingCONNECT Accelerator enables you to:

- **Go “Live” on Dynamics 365 in weeks, instead of months or years.**
- **See ROI on your project sooner.**
- **Reduce project risks.**
- **Minimize disruption to your business.**

Start small and move fast! Use just what you need now, and expand your solution as your business grows and requirements change.

## SOLUTION HIGHLIGHTS

- Pre-configured Dynamics 365 for Operations
- Built-in Best Practices
- Hosted on Microsoft Azure
- Uses Lifecycle Services for Testing
- Integrates with Microsoft Office
- Enables Easy Excel Import of Legacy Data

## INDUSTRIES SERVED

Discrete Manufacturing

## WHY USE THIS ACCELERATOR?

The ManufacturingCONNECT Accelerator enables you to get your manufacturing ERP system set up quickly with low risk, creating a stable platform for growth.

## Everything is Built in - Software, Services & Support

Our expertise in manufacturing and with Dynamics 365 has enabled us to pre-configure the solution, then bundle it together with the processes, dashboards, templates, tools and services most commonly required by discrete manufacturers. Delivered through Microsoft Azure cloud, no hardware setup is required. You get the same great Dynamics 365 software and a fixed scope implementation with less risk and less cost.

## Full Manufacturing Functionality

Because MCA Connect handles most of the work and has already configured and tested the system, your IT & business teams can largely continue doing their regular work.

The main things you give up are:

- **Endless project meetings**
- **Making hundreds of tiny decisions**
- **Disruption to your staff's time**
- **Sleepless nights and stressful days, worrying about the project**

## One Connected Operation

With the ManufacturingCONNECT Accelerator you can manage your entire production lifecycle, customer lifecycle and supply chain. The Accelerator seamlessly integrates with other Microsoft Office applications that your users are already familiar facilitating rapid user adoption, overall satisfaction, and project success.

## About MCA Connect

As one of the largest Microsoft Dynamics Partners in the U.S., we've been named Worldwide Microsoft Dynamics AX Partner of the Year (Dynamics 365 for Operations), U.S. Dynamics Manufacturing Partner of the Year and have received a myriad of other awards. We've packaged up our knowledge, templates and training to offer this proprietary turnkey system.
