

# STEMuli.

## Helping School Districts Succeed

# How Does STEMuli **Benefit** School Districts?

After many years of research and active involvement in large urban school districts, we have built STEMuli to help you stay more efficient and well equipped to transition into the future of education.

1

## ATTENDANCE TRACKING

Allows schools to measure attendance through the time students receive live or recorded instruction from teachers or industry partners.

2

## EASY COMMUNICATION

Allows students to have easy access to their teachers, instruction, and support resources from the school district.

3

## SEAMLESS INTEGRATIONS

Integrate all your favorite digital tools and systems in one place. i.e. Google Classroom, Microsoft Teams, Zoom, Student Information Systems, and more.

4

## PROGRAMS SUPPORTED

Virtual Learning K-12, Early Childhood, SPED, Workplace Learning, P-TECH, Career Technical Education, STEM, Dual Credit Enrollment, Summer Programs

# STEMuli How We Help Our Core Users

## **STUDENTS**

We provide students with the necessary tools to communicate with teachers and counselors, learn in a virtual classroom, and prepare for the workforce through industry partner mentorship and projects.

Features: Share Daily Plan, Submit Assignment, Track Attendance, Request Help, Chat with teachers, etc.

## **COUNSELORS**

We provide counselors with the tools to book appointments with students and respond to student's needs at the click of a button.

## **INDUSTRY PARTNERS**

We empower industry partners to develop and source their future workforce through virtual mentorships and virtual internships.

## **TEACHERS**

Enables teachers to prepare their virtual classroom, create and grade assignments, and connect with their students at the click of a button.

## **WORKPLACE COORDINATORS**

We provide the tools for workplace coordinators to build customizable digital workplace learning experiences between partners and students.

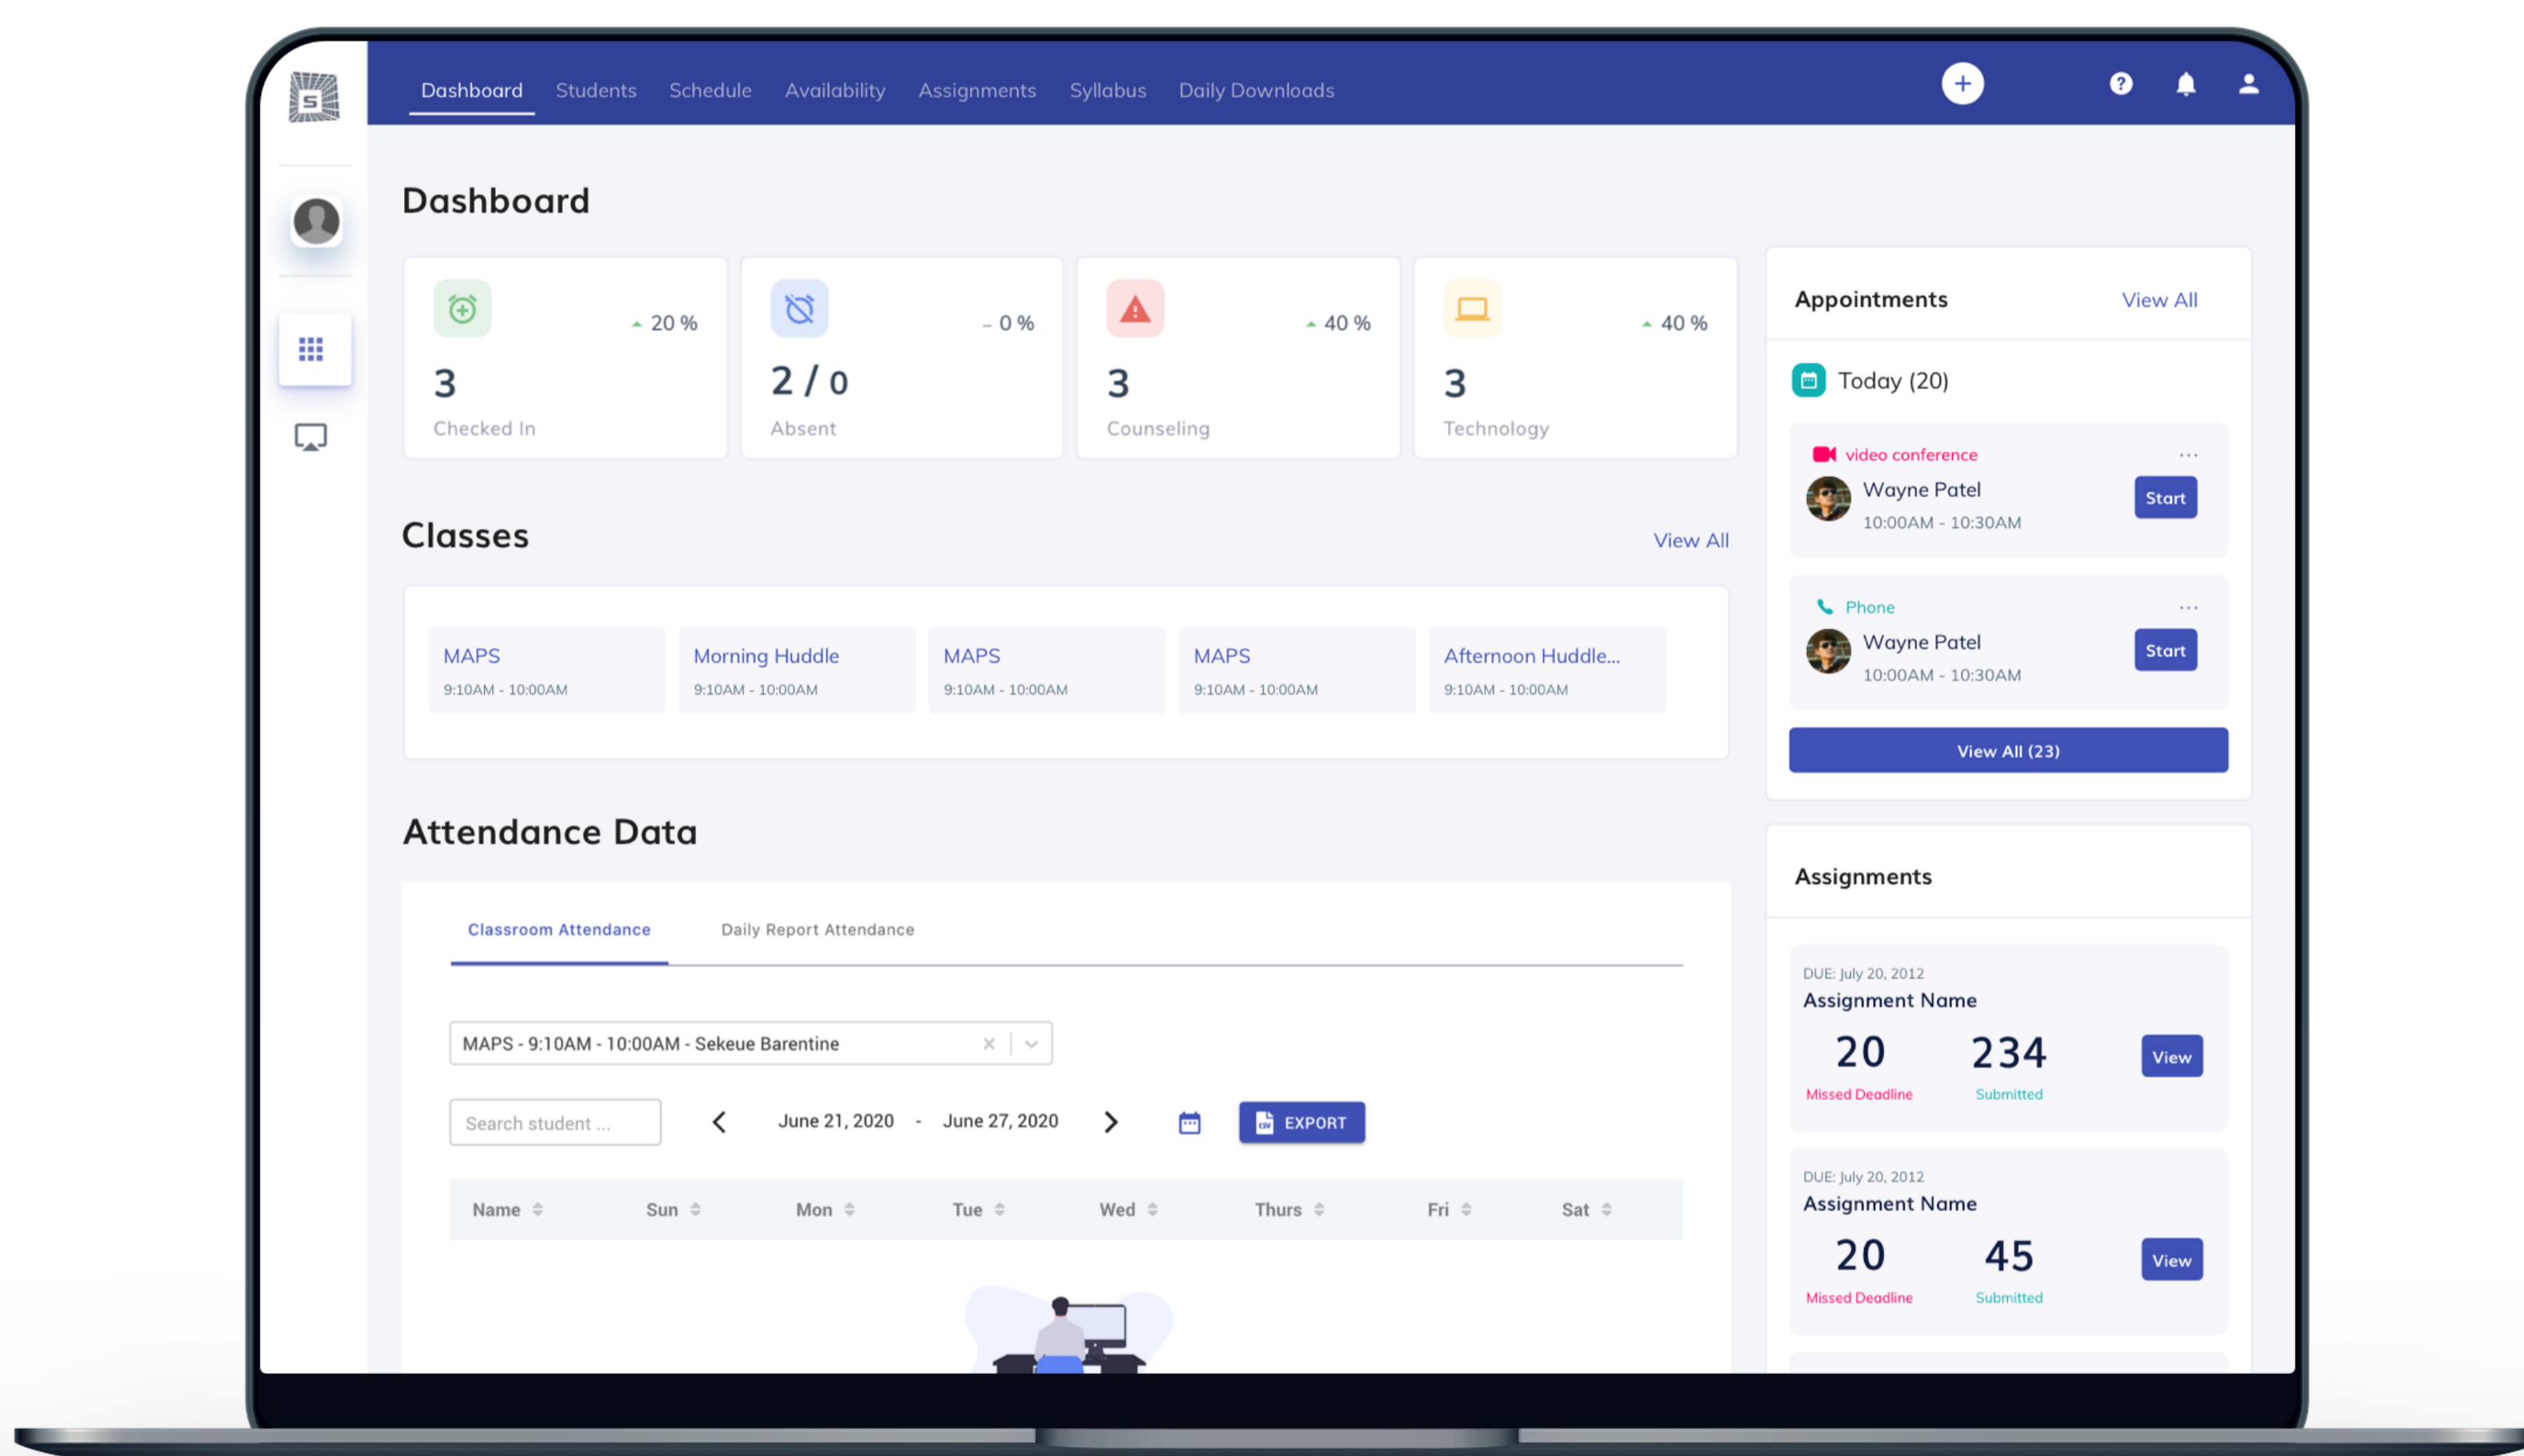

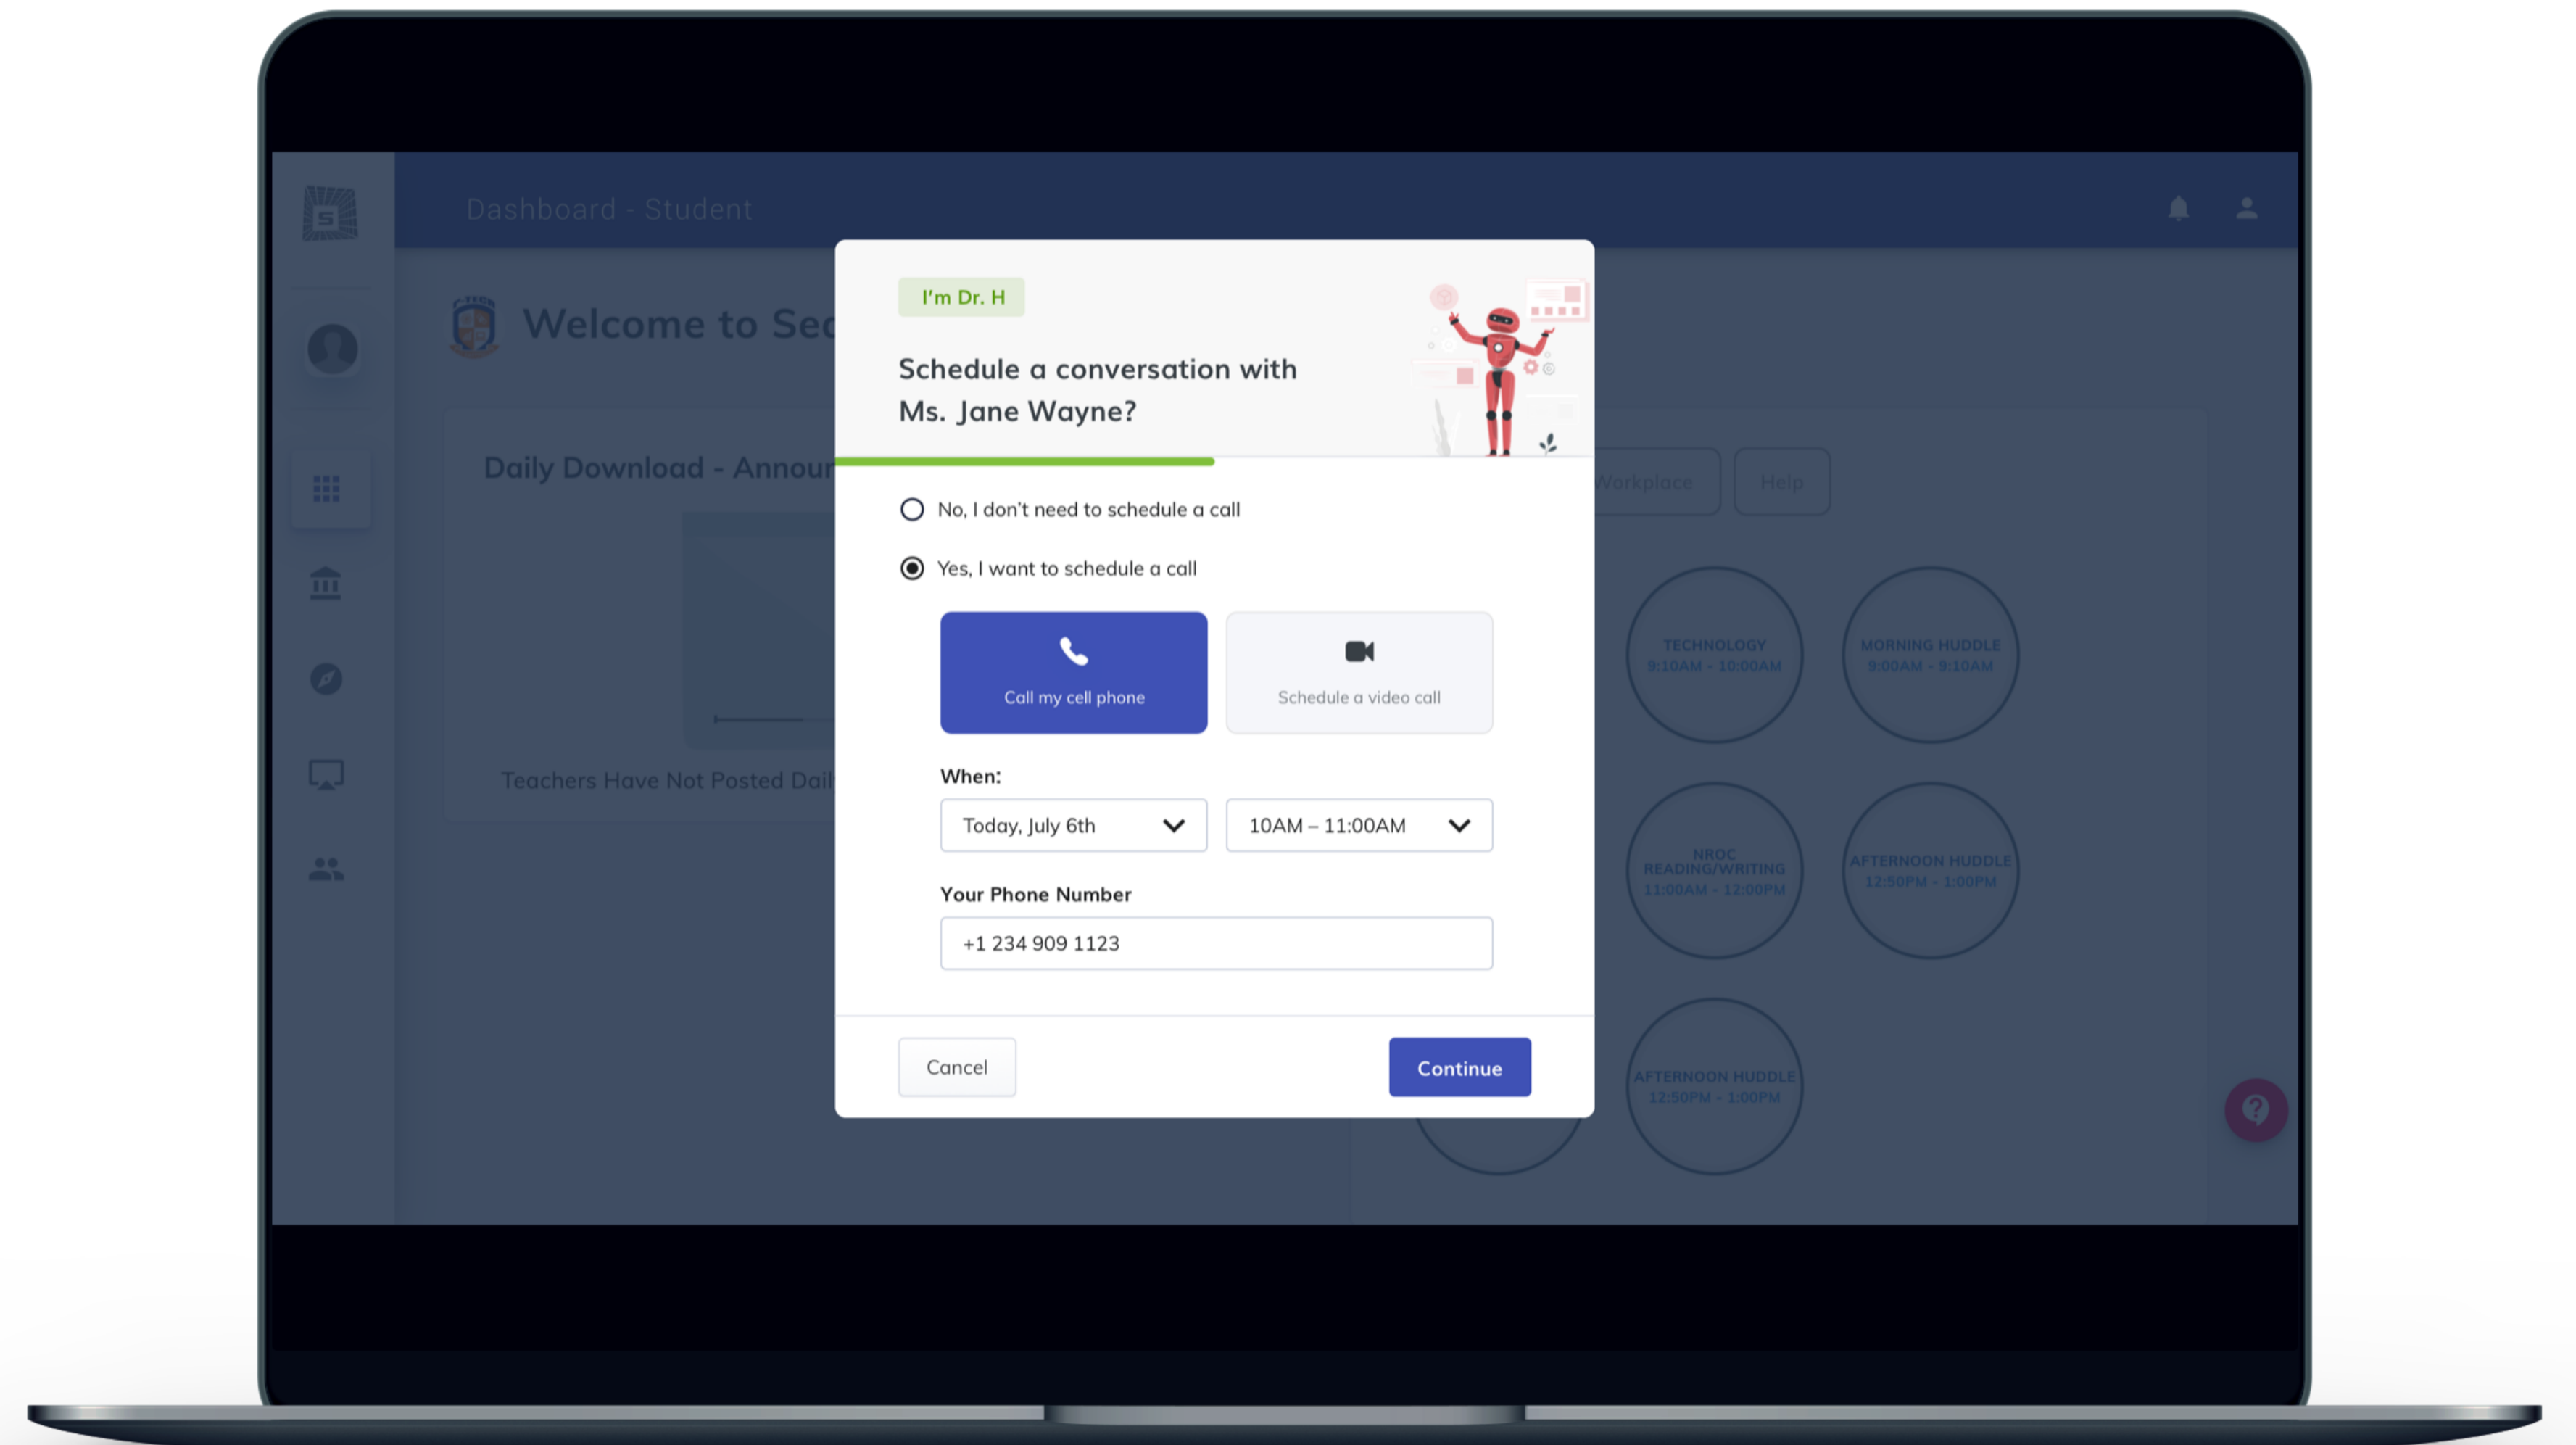

## **DISTRICT CENTRAL STAFF**

We enable school districts to complete detailed attendance and productivity reports that empowers them to make student centric data driven decisions.

# STEMuli Feature Highlights

## Virtual Classroom & Real Time Communication

- Live Video Conferencing
- Ability to Upload Recorded Instruction
- Chat
- Attendance Reporting
- Teacher's Assistant
- Student Help Request System
- Teacher and Student Appointment System

## Data Reporting

- District Level
- Campus Level
- Teacher Level

## Workplace Learning

- Virtual Mentorships
- Digital Resume
- Digital Portfolio
- Career Based Projects

## School House Progress Monitoring

- Grading Functionality
- Learning Management: Assignment Creation
- Productivity Measurements

## Seamless Integrations

- Integration into Google Classroom
- Integration into Student Information System Gradebook
- Integration into District Attendance Reporting Software
- SAMR Integration
