SAP on Azure

Half Day Assessment

- A high-level assessment will be performed of your infrastructure with possible recommendations on landscape designs and SAP migration strategies
- SAP on Azure capability – discuss available certified infrastructure for running SAP on Azure
- Recommendations on migration of SAP workloads to Azure
- Identify quick wins and possible Proof of Concept move to Azure
- Estimated costs for current infrastructure hosted in Azure

Workshop

Gain a greater understanding of running SAP on Azure.

Time

Half Day of valuable information

Cost

Free – the only investment is your time

De-risk your cloud journey and embrace digital transformation with Edenhouse, and take advantage of this half-day assessment.

Many organisations have already set themselves up for success by running their SAP applications on Azure.

Now is the time to integrate your SAP investment with modern workplace tools. Give yourself enhanced security and an elevated user experience, while reducing cost and de-risking your journey to the Azure cloud.

Visit www.edenhousesolutions.co.uk/sap-services/sap-on-microsoft-azure to take advantage of our free pilot* and experience first-hand the benefits of SAP S/4HANA on Microsoft Azure; or contact Robert Furnivall directly at saponazure@edenhousesolutions.co.uk or +44 (0) 330 058 6020

[Get Your Free Overview](#)

Azure credit offer is subject to Microsoft internal approvals through regular processes and tools; while supplies last (limited availability). Subject to contract.
