

## Suade's Regulation-as-a-Service

Technology to prevent the next financial crisis

With complexity and number of regulatory requirements only going to increase, Suade is designed to empower the regulatory user to focus less on what they need to do for regulation and more on what regulation can do for them.

### What is Suade?

Suade is revolutionising the way banks traditionally comply with regulation. Using cutting edge technology, Suade is automating the process for banks to meet their regulatory requirements, making it much more efficient and cost effective.

### Why customers use Suade

- Users can spend more time understanding their data and less time focusing on compliance as the software takes care of that for you.
- The platform can be deployed on any infrastructure.
- It is scalable, modular and interoperable.
- FIRE data format allows users to free their data from vendor addiction.

### Cost effective

- The nature of the platform automates many of the processes surrounding regulatory compliance enabling it to be extremely cost effective.

**>10x improvement in costs**

### Saves time

- The platform processes large volumes of granular data leveraging on APIs, saving time wasted on manual inputs.

**>80% reduction of manual processes**

### Increased scalability

- Suade's open platform enables the user to not be reliant on a single vendor.
- The "map once, map forever" notion makes it seamless to add modules to the platform.

**Easily scalable, modular and interoperable**

"Suade's ALMM, NSFR and LCR liquidity package is second to none. After a one off data mapping, we are now able to produce all of our liquidity reports effortlessly. It is an extremely cost-effective solution which is unrivalled."

- Tier 1 UK bank

# Suade, deployed on Microsoft Azure, allows customers to take advantage of the Cloud

## Proof & Statistics

- Drastic reduction in total cost of ownership.
- Proven at least 10x improvement in efficiency and cost.
- >80% reduction of manual processes for Suade's clients.

## Proof & Statistics of Joint Solution

- Quick and easy deployment on the Cloud.
- Prevent data loss due to hardware failures.
- Receive automatic Suade software updates.

## Suade

### Our promise to you

A quality platform which will ensure regulatory compliance in an ever changing landscape.

With regular updates to the system to improve functionality and consistent updates as regulation is legislated, you are guaranteed to be compliant.

## Tangible Benefits / Desired Outcomes

- Banks across the world are using the Suade platform to cut their reporting costs.
- Manual time spent on regulatory compliance has reduced dramatically for clients using Suade.
- The platform enables users to better understand their granular data.

## Why Suade?

Suade is a pioneer in the RegTech space with no other cost-effective solution matching the quality of Suade's software.
