Microsoft
Windows Virtual Desktop (WVD)

Proof-of-Concept
Deployment

Gold
Microsoft Partner
Microsoft

CompuNet, Inc.

Virtualization makes IT simpler to manage and less costly to own and operate

- Increased IT agility, flexibility, and scalability
- Significant cost savings
- Greater workload mobility
- Increased performance and availability of resources
- Ability to automate operations

# Windows Virtual Desktop

The best virtual desktop experience, delivered on Azure

Windows 10 + Office 365

Windows Server

Microsoft Azure

Gold
Microsoft Partner

Microsoft

Covered by the Azure Migration Program, ensuring the most cost-effective, frictionless way to move to the cloud

Deliver the only multi-session Windows 10 experience

**Enable optimizations for Microsoft 365 Apps for Enterprise**

Migrate Windows Server (RDS) desktops and apps

Deploy and scale in minutes

Address hybrid requirements and existing solutions

CompuNet, Inc.

Optimize your desktop virtualization experience to leverage the power of a modern cloud

Expand capabilities with the best virtualized end-user experience

Realize more efficient and simplified management

Ensure security and modernization with a standardized, global cloud

Significantly reduce costs without compromising quality

Microsoft

CompuNet, Inc.

Expand capabilities with the best virtualized end-user experience

- ✓ Connect to any platform with an experience just like native

- ✓ Enhance protocol by adapting bandwidth utilization

- ✓ Enable fast VHD load times and log-on times with containerized user profiles

- ✓ Drive stronger collaboration with Teams enhancements

Microsoft

Realize more efficient and simplified management

- Unify both Desktop and RemoteApp experiences for easy-to-grasp learning

- Engage flexible user experiences through a single host pool and multiple app

- Utilize automated VM deployment

- Solve errors quickly with simplified but powerful troubleshooting with advanced diagnostics

Ensure security and modernization with a standardized, global cloud

✓ Reach anyone, anywhere with 54 regions (more than any other cloud provider)

✓ Rely on powerful cyber defense operations with over 3,500 full time security professionals

✓ Assign role-based access control to admins

Significantly reduce costs without compromising quality

- ✓ Decrease spending to only virtual machines, storage, and networking consumed while using the service

- ✓ Employ the full Windows 10 experience at multi-session cost

- ✓ Absorb the licenses you already own to limit spending

CompuNet's WVD **Proof-of-Concept** Deployment occurs in three phases:

1. Current State Discovery
2. Planning for Future State
3. POC deployment aligned with business and technical requirements

CompuNet's POC methodology is based on a **"learning by doing"** model with your team focusing on the core principles of governance, management, security, and compliance within Windows Virtual Desktop.

This approach provides a **strong foundation** that will allow you to create a rollout and adoption plan to serve as the blueprint for a phased production rollout of WVD.
