

# Azure Migration Assessment

# Process

How we do it:

Input:

Bid including:

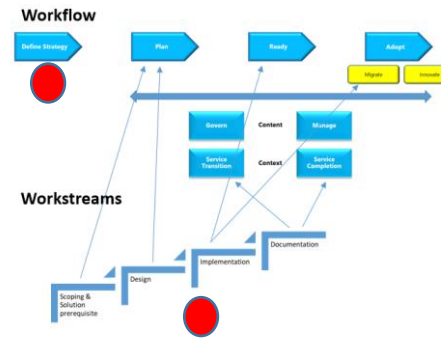

- Objectives/success criteria's
- Overall scope

Project Plan including

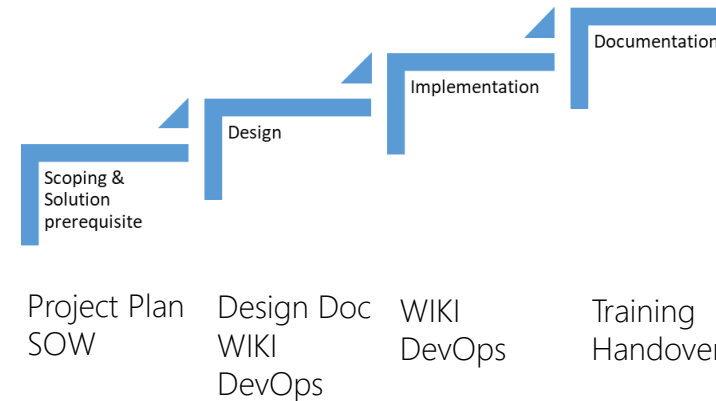

- SOW
- Workshops
- Working methods (DevOps)
- Customer engagement
- Consultant engagement
- Deliverables
  - Documents
  - Training
- Test/Quality activities
- Process for Migration (we do prototypes, first-five and document the process for the customer who execute the remaining workload)

Process:

- # of Phases depends on the customer project
- Schedule depends on Who take the PM
- If we take PM, we create schedule and progress reporting

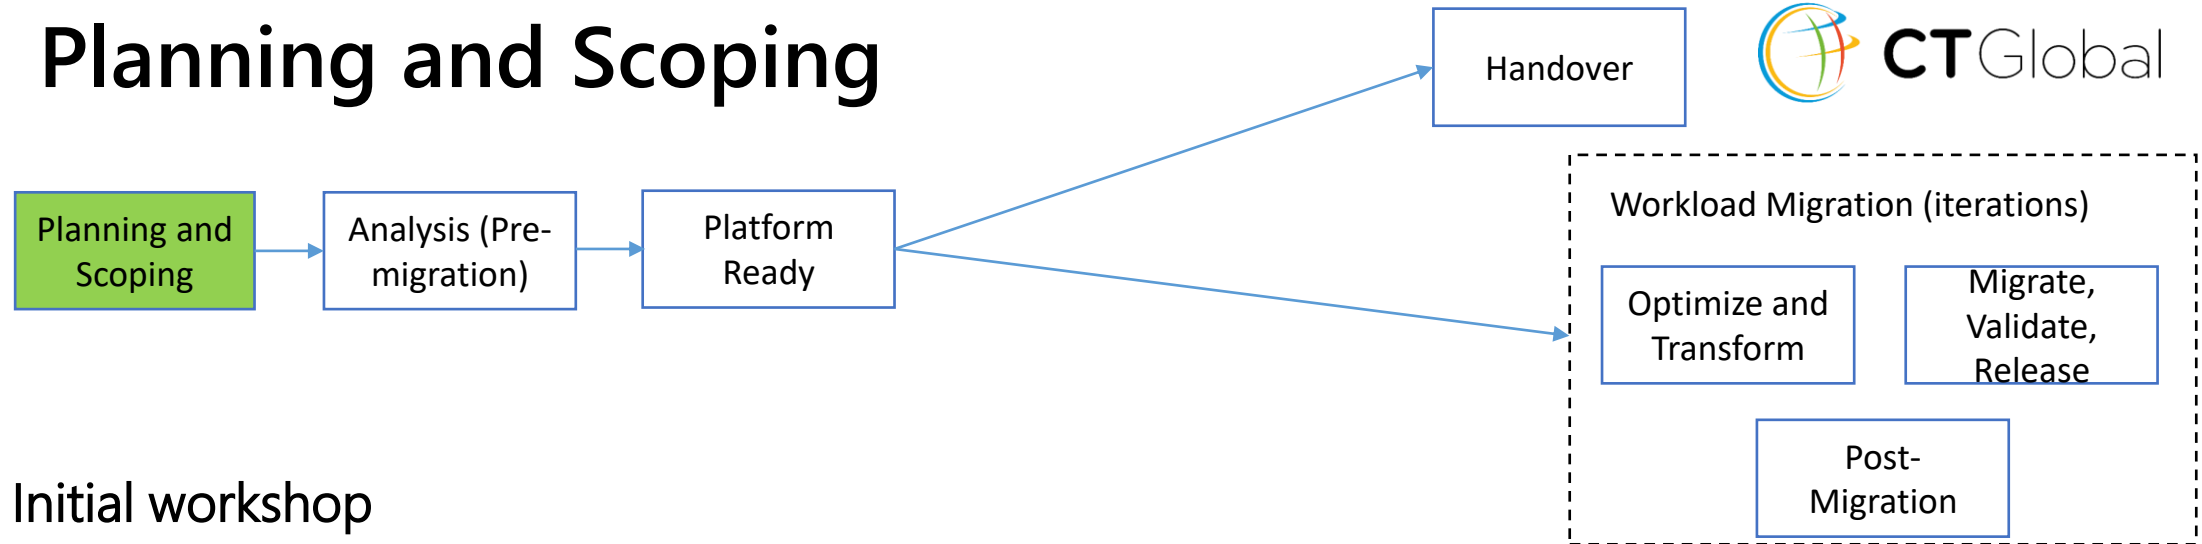

Deliverables

Phase	Deliverables
Scoping & Solution prerequisite	Project Plan SOW
Design	Design Doc WIKI DevOps
Implementation	WIKI DevOps
Documentation	Training Handover

# Planning and Scoping

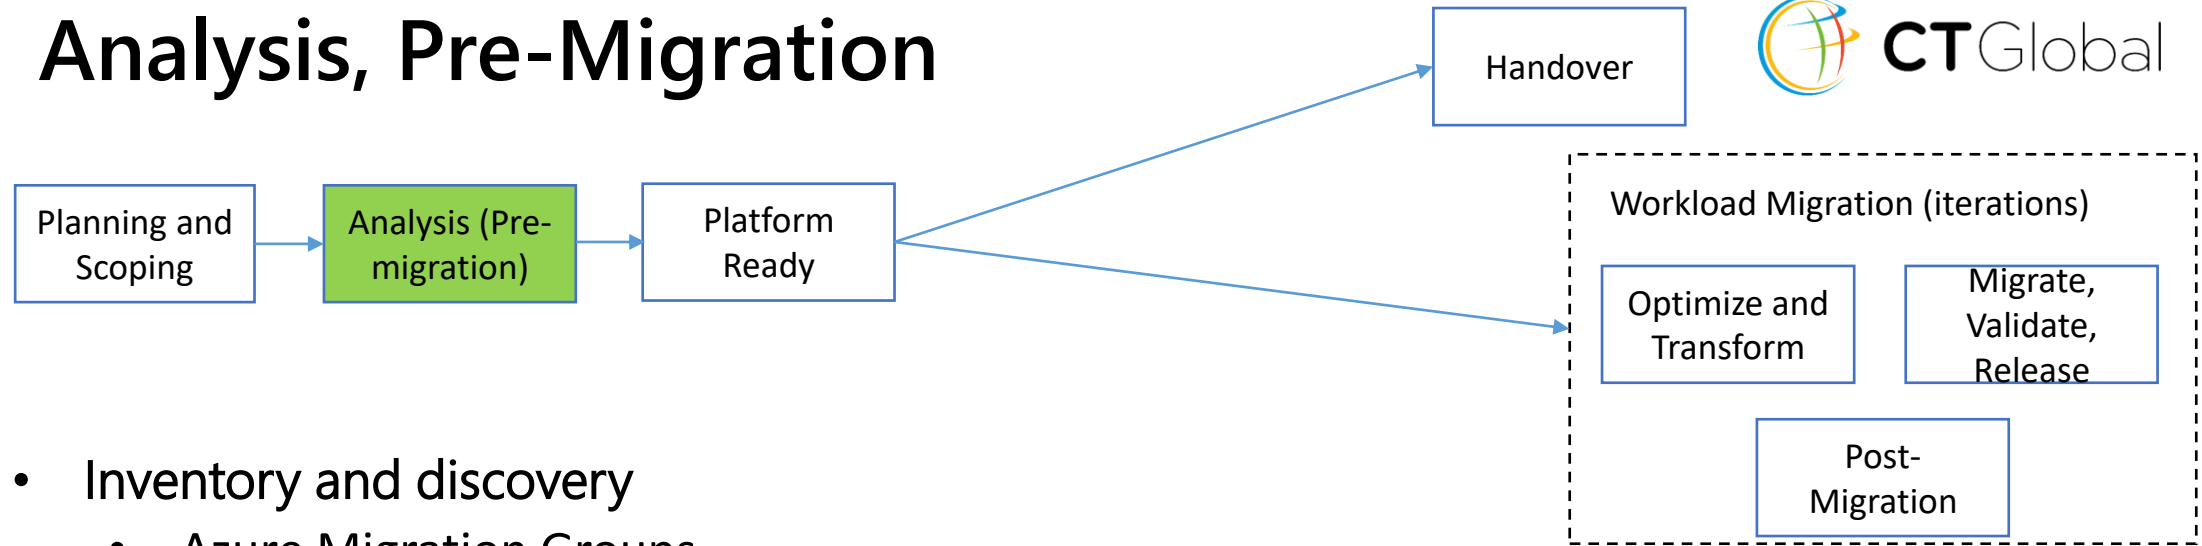

## Initial workshop

The purpose of this workshop is to provide the customer with an overview of workload migration activities and align expectations. It covers the following:

- Overview of project activities for workload migrations
- Cloud Strategy
- Scoping
- Process for migrations
- Migration strategy
- Migration tooling
- Risk assessment

# Analysis, Pre-Migration

- Inventory and discovery
  - Azure Migration Groups
- Data collection
- Analysis of collected data
- Current policies for backup and security, current monitoring system
- Initial cost and licensing overview
- Alignment (cost, migration strategy, first project, stakeholders, resources)
