

# Secure bank login

Active Login makes it easy to implement secure login via ea. BankID in your systems.

Together we will perform a Proof-Of-Concept to make sure that you will use the right technology and architecture for your circumstances, whether you use Azure AD, Identity Server or another login solution.

# Secure Bank Login

We have helped several companies implementing login via ea. BankID. Together we will investigate your requirements, analyze your current technical solution and do a Proof-Of-Concept and plan for further implementation to ensure an optimal solution for your specific situation.

The offer *Secure Bank Login* har följande upplägg:

- Joint alignment on your current situation, challenges and opportunities
- Active Solutions consultants will work with your technicians to implement a POC in your system.
- Experiences made within the POC is summarized and documented.
- A plan for full-scale integration into your organization is developed.

Price: 49 000 SEK (excl. VAT)
