

Integration of Shopify with Microsoft Dynamics: 5-Day POC

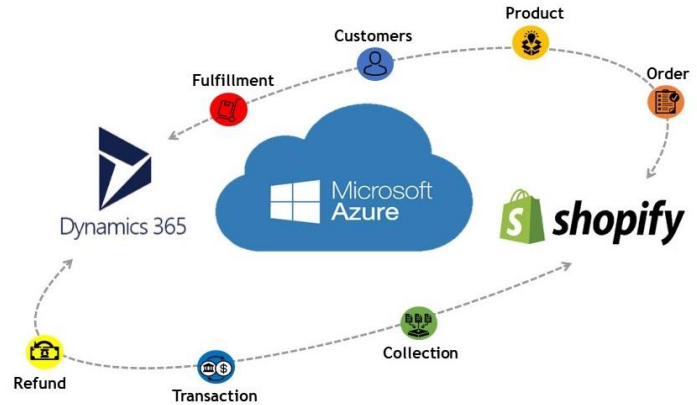

Integration of Shopify with Microsoft Dynamics

Azure Integration Services (AIS) makes easy to fully integrate the Shopify eCommerce app with Microsoft Dynamics syncing orders, customers, products, refunds, custom objects to and from your business databases, marketing platforms, and more – making data available when you need it.

Why NeosAlpha

We are a certified Microsoft Partner for Application Integration. Our Microsoft Azure certified experts backed up by large number of integration (strategy to implementation) projects experience can help you accelerate your journey to integration. NeosAlpha built integration framework between Dynamics and Shopify can reduce the time to value of your eCommerce integration.

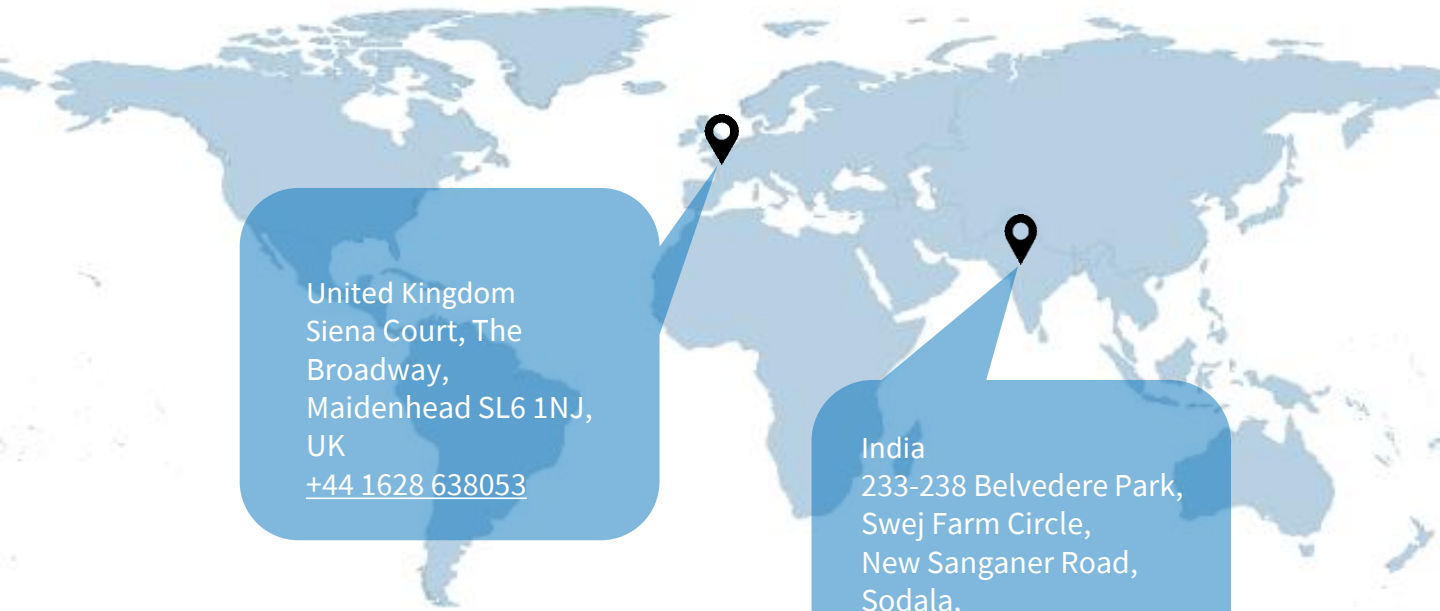

Our Approach

Agenda

- Day 1 Kick-Off meeting, understand integration scenarios and review the scope of POC.
- Day 2 Priorities a few integration flows, analysis, design, object mapping, connection setup and error handling mechanism.
- Day 3-4 Azure setup and develop
 - Customize Microsoft Dynamics and Shopify integration with triggers and actions.
 - Develop and unit test POC (Proof of Concept) to Integrate Shopify eCommerce applications with Microsoft Dynamic.
 - Document the deliverables
- Day 5 Final walkthrough of the approach, solution and integration processes, Proof of Concept closure, and planning of next steps.

Deliverables

- POC design,
- implémentation code base and documentation (optional)
