Colt Intelligent Communications

Proof of Concept

Microsoft Teams Direct Routing

Communication and Collaboration architecture with integrated applications and optimised costs

A single front end user application to improve your productivity

Integrated communication experience

Minimised voice costs avoiding expensive calling plans

Why a POC?

To have the upper hand against your competition you need to achieve the highest productivity gain whilst minimising your IT and communications costs. For that to happen it's important to validate the benefits of a solution in the most expedient way by relying on a partner with expertise in all involved areas to take care of a Proof of Concept.

Colt will provide Direct Routing for Microsoft Teams across 13 countries as part of an Intelligent Communications solution with one single point of contact and contract covering the applications, PSTN voice, connectivity, transition services and hardware.

Don't miss the opportunity to learn more about your potential benefits and the best way forward to reap them by signing up to a Proof of Concept with Colt.

Colt Proof of Concept Promo

- ✔ Are you an Office 365 E5 or E3 user with phone system licensing?
- ✔ Are you using Skype for Business and considering moving to Teams, or already using Teams and lacking the PSTN connection?
- ✔ Want to test how a single front end user application with voice, videoconference, IM and group and team collaboration can improve your productivity?
- ✔ Want to minimise voice costs and run away from expensive calling plans or duplicated infrastructure?

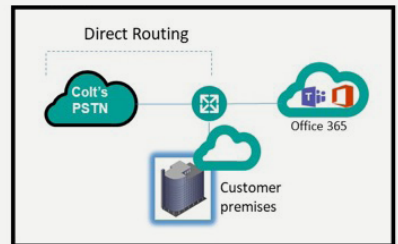

What will Colt enable:

- ✔ Experience Teams together with high quality voice services in a single point of contact
- ✔ Test a new architecture with integrated applications and optimised costs
- ✔ Move seamlessly from POC environment to production.

Colt provides:

- SIP trunk with 10 SIP Channels, with new DDIs.
- Virtual SBC installed in your data centre or your Azure/AWS infrastructure
- Configure up to 10 Teams users
- Planning and Design
- Remote Configuration and Change Management, up to 15 hours to be use during the POC
- Testing & Handover
- Final reporting

POC proposal
