

Navapp Business Central Solutions

Turkish Localization

Turkish Localization for Microsoft Dynamics 365 Business Central

- With the Navapp Turkish Localization, you can manage your financial processes in a way compatible with the Tax Procedure Law (TPL - VUK) in Turkey.
- With the Navapp Turkish Localization, you can define withholding rates, and include them into Sales and Purchase document as well as General Journals and then post withholdings to General Ledger compatible with the legislations.
- You can define Current, Advance and Deduction accounts over a single posting group and manage accounting processes without multiplying Customer and Vendor cards.
- You can reverse the documents posted from Purchase, Sales and Service, and prevent the ledger entries of the reversed documents from being included in the Trial Balance and Subledger reports.
- You can define receivable and payable cheques and promissory notes, and follow their due dates, manage the accounting connections of each cheque/promissory note through portfolios, and manage long and short-term accounting processes.

Turkish Localization for Microsoft Dynamics 365 Business Central

- You can define finance cards for credits, leasing and assets, follow your payment terms for each card, make long/short term integrations and manage accounting processes.
- You can manage multiple discount processes for each line in purchase and sales quote, order and invoice documents.
- You can get reports of Ledger, Subsidiary Ledger, G/L Trial Balances, G/L Voucher, BA-BS, VAT Declaration Control, Income Tax Declaration Control and Balance Sheet and Income Statement in a way compatible with the Tax Procedure Law (TPL - VUK) in Turkey.
- Exchange Rates published through the Central Bank of the Turkish Republic is automatically downloaded into the system so you can avoid the manual entry of the rates.
- Long-Short term integration is automatically applied according to due dates on the records which comes from Turkish legislations such as Credits, Leasings, Letters of Credit, Cheque/Promissory Note, Deposits. You can make balances in the accounts such as 180, 280, 380, 480 transfer to income/expense accounts automatically at the end of the accounting period.
