MILAS®
for Feed

What is MILAS®?

MILAS® is an industry-specific, complete and standalone enterprise resource planning (ERP) solution that has Microsoft Dynamics 365 for Finance and Operations at its functional core. Equipped to handle the most complex business processes in the nutrition supply chain, MILAS® provides a future-proof solution with native cloud capabilities.

For every business, the streamlining of purchasing, sales, operations and finance processes is essential to growth. Businesses in the nutrition sector are no different – they can only thrive if their ERP system incorporates industry best practices. By combining Adifo's industry expertise with the immense power of Microsoft Dynamics 365 for Finance and Operations, MILAS® streamlines the entire organizational workflow of the nutrition supply chain, including:

MILAS®
for animal
nutrition

- Procurement and risk management

- Sales and purchase logistics

- Advanced sales discounts and charges

- Purchase landed cost calculation

- Production support

- Recipe and label management

And MILAS® does even more to increase efficiency! It also seamlessly integrates with feed formulation and recipe management software (such as BESTMIX Feed Formulation and BESTMIX Recipe Management), quality control software (such as BESTMIX Quality Control), MES, EDI, weighbridges, etc.

How can MILAS®
benefit
your business?

Make your workflows more efficient

You can rely on MILAS® to help you make better business decisions and reduce risk. MILAS® uses the power of Microsoft Dynamics 365 for Finance and Operations and benefits from Adifo's extensive experience to streamline your purchasing, warehousing, sales and invoicing processes. MILAS® meets the demands of the competitive animal feed sector and empowers you to grow your business and succeed in marketplace.

Place your trust in MILAS® and take back full control of your business processes.

full control of your business processes

01 / More competitive raw material sourcing

MILAS®, in combination with BESTMIX®, provides real-time information on your purchase positions, stock levels and commodity prices. With our advanced purchase, contract management and risk management modules, you get easy online insight into every aspect of your ERP. You can use this 'out of the box' integration to perform rapid 'what if' scenarios that help you to reduce the largest cost to your business..

02 / Guarantee customer satisfaction

Improve your customer service by storing industry data (e.g. silos, prescriptions, feed additives) directly in your ERP. By integrating this data, you can speed up the order-entry process and ensure your customers receive their deliveries on time and at the best possible price. The advanced sales pricing module allows you to manage discount and charge systems that rely heavily on preset parameters directly in your ERP. With MILAS® you can offer your clients the best price every time and build lasting customer relationships.

03 / • Improve overall productivity

Connect MILAS® to the world by using Adifo Integration Services. With our industry-specific interfacing modules, you can easily create seamless integrations between every essential element of your business, such as MES, formulation, banking, EDI and quality control. By integrating these processes, you empower your team to work smarter, so they can achieve your business goals faster and with less human error.

04 / Reduce risks

Thanks to its embedded modules, MILAS® offers a straight path to safer and more efficient operations, so you can streamline procedures around the core elements of your business that carry the most risk, such as medicated feed handling, forward commodity contracting and customer-credit management. Fewer opportunities for error means better results for your business.

05 / The power of Microsoft

MILAS® combines Adifo's industry expertise with the power of Microsoft Dynamics 365 for Finance and Operations. You can be confident that Adifo's ERP will always provide the most reliable and accurate industry data, while Microsoft is constantly improving the technology. Choose a true winning team, one that combines the best of all worlds.

what our customers say

We manage our entire logistical flow with MILAS®, from international contracts to factory reception, including the complete inventory and costing process. We chose Adifo as a partner for their in-depth knowledge of our business and their professional consultancy."
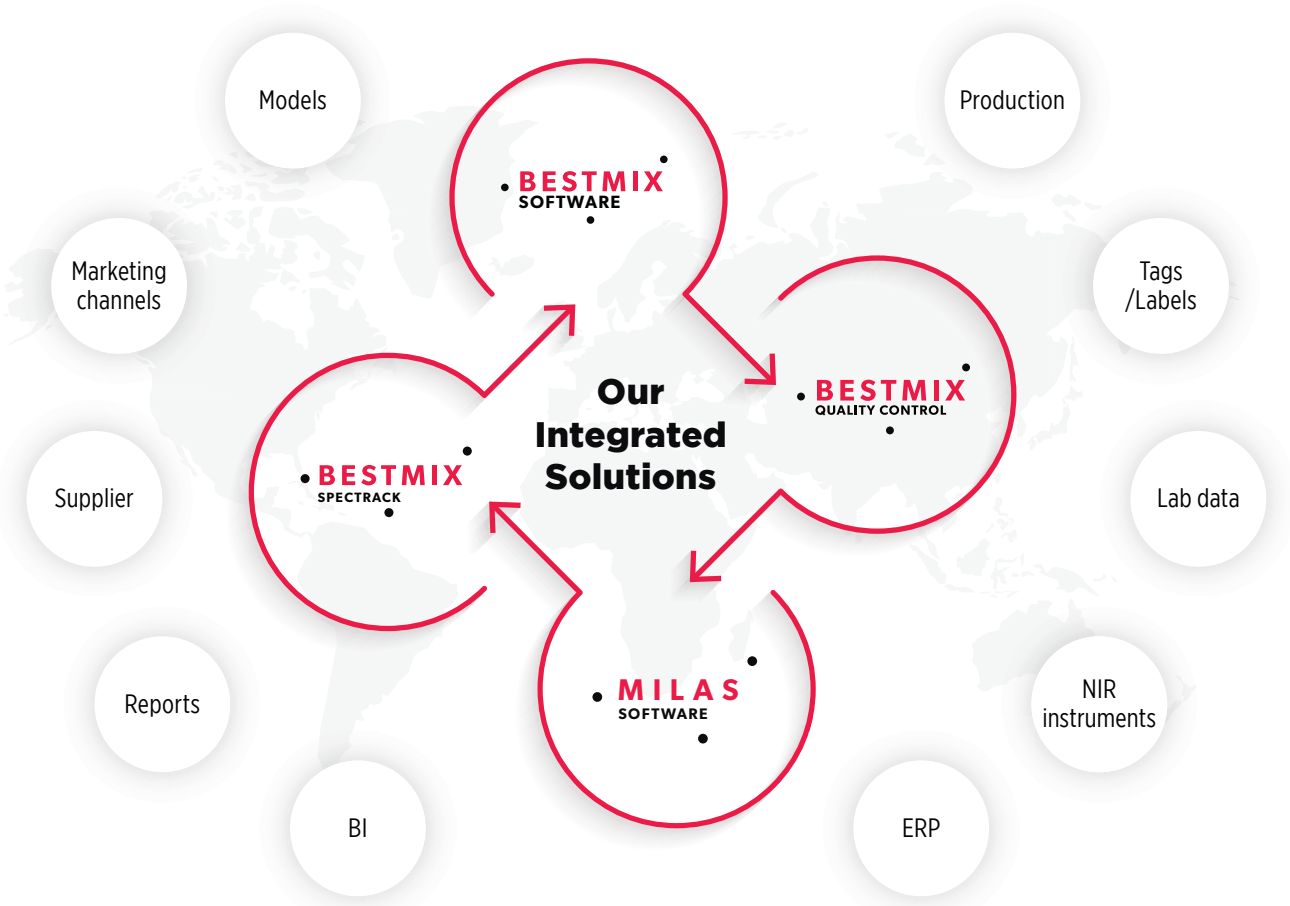

"Adifo's consultants have an excellent understanding of our feed industry; it's probably in their genes. They take a down-to-earth approach and showed great effort and dedication in managing our ERP project."

"When we picked Adifo as a partner, we expected them to deliver sector knowledge, dedication and a solution that didn't need excessive customization. After the implementation process and a smooth go-live, I am happy to say that our expectations were met."

Clint Cooper, Executive Director of IT at Agri Beef
