Who We Are

We are a team of certified NetSuite ERP consultants, administrators and developers with 100+ implementations under our belts. We also have BI experts on staff. We are focused on helping NetSuite customers obtain a huge ROI on their NetSuite data and achieve improvements to their financial and operational results.

How We Extend NetSuite

By giving NetSuite users the ability to integrate their NetSuite data with their 3rd party application of choosing.

Features

- Runs off saved searches
- 15 minute implementation
- Controlled 100% inside NetSuite
- No middleware

Benefits

- 100% reduction in time spent manually loading data into 3rd party BI tool
- Much faster, less expensive and easier to use than SuiteAnalytics Connect ODBC

Our Solution

What is Tactical Connect:

Saved Search Exporter: Schedule Saved Searches to automatically export to your application of choosing such as Power BI, Tableau, Qlik, SharePoint, Amazon S3, OneDrive and more

Common Use Cases:

- Connect to your favorite BI Tool: Use your NetSuite Saved Searches in your favorite BI tool or other applications (i.e Power BI, Qlik & Tableau)
- Create a NetSuite data Backup
