

Driving Operational Efficiency with accurate actionable insights

Columbus helps businesses to digitally transform and improve the value realization of business applications. Delivering Microsoft Dynamics 365 Business Applications and the wider Power platform.

What is Columbus and Microsoft Dynamics 365

Columbus Manufacturing streamlines the supply chain while cutting costs. It increases process efficiency, improves accuracy and visibility of data, enhances resource utilization and maximizes margins. With our industry know how, we have helped manufacturers make significant improvements to their businesses.

Improved traceability

- Improves effectiveness in every stage of the production cycle
- Promotes accurate and real time information
- Enhanced visibility across the supply chain

'New efficiencies ensures the business runs more smoothly'

Simplified compliance

- Enhanced role-based security
- Improved audit trails and system controls
- Improved disaster recovery infrastructure

'Our data is far more accurate, our processes more efficient'

Why customers use Columbus Manufacturing

- Better insight into customers, sales pipeline and overall business
- Maximize production efficiency and reduce downtime
- To improve margins in key growth areas

Competitive advantage

- Improved financial reporting
- Improved sales forecasting
- Enhanced reporting, analytics and BI

'The solution gives us a better position in the market'

"The Columbus team were able to deliver our solution two weeks ahead of schedule and more than 15 percent under budget."
Carol Wills, Controller, CymSTAR, LLC

Columbus Manufacturing, deployed on the Microsoft platform, allows customers to take advantage of improved visibility and data
