

Get started with Power BI with a 1-week, free Proof of Concept

cloudmoyo™

With our 1-week direct engagement, the CloudMoyo Power BI consulting team will work with you to demonstrate a simple, yet impactful, use-case of your choice. Using your own data, we'll develop a trial report for demonstrating the advantages of Power BI. This trial report will contain a data model as well as a front-end report with visualizations.

What's included?

- ◆ Determination of a use-case for the PoC
- ◆ Set up of an Enterprise Gateway and a solution template
- ◆ Build a data model using 1-2 data sources
- ◆ Develop up to 5 common visualizations
- ◆ A roadmap for full-scale Power BI implementation

Power BI Proof of Concept – Our methodology

- ◆ Prepare and agree on detailed requirements
- ◆ Prepare and share a plan of PoC
- ◆ Identify data sources and analyze data readiness
- ◆ Data preparation and visualization
- ◆ Create an interactive report and a compelling dashboard

Why CloudMoyo?

- ◆ Microsoft Gold Partner for analytics and AI
- ◆ 10+ years of digital transformation excellence
- ◆ Flexible engagement models
- ◆ Certified analytics experts and expertise
- ◆ Cross-industry domain experience with Fortune 500 customers
- ◆ Executive commitment to customer success

Terms and conditions

This offer is only available in the United States. This 1-week direct engagement can be customized as per the needs of the participating organization, and may be funded for qualified customers. Travel cost is additional for sites outside of Seattle or Kansas City.

About CloudMoyo

Headquartered in Bellevue, WA with a presence in Kansas City, MO and Pune, India, CloudMoyo is the partner of choice for solutions at the intersection of cloud and AI. As a leading Cloud & Analytics partner for Microsoft, CloudMoyo brings together powerful business intelligence (BI) capabilities using the Azure Data Platform to transform complex data into business insights. We help customers achieve insight, innovation, and impact through big data, machine learning, automation and predictive analytics. Our proven track record includes developing enterprise solutions for Fortune 1000 companies such as Microsoft, and Kansas City Southern, among others.
