

Envision what your future in construction looks like

Our experts are here to help you solve key challenges such as:

- Building a resilient supply chain
- Cost optimisation, margin analysis, and managing financial risk
- Building agile business processes
- Unifying data to generating value with proactive insights
- Building an enterprise scale framework

Build a better future.

Homebuilding is rapidly evolving creating a need for more efficient responses, sustainable supply chains, responsible and compliant practices, and a growing skills gap in workers. This is pushing homebuilders to create new business models and rethink the entire construction value chain.

In this new reality, how do you envision the future state of your organisation? Build your transformation strategy with Microsoft Catalyst, a proven and powerful approach to innovation.

Let's ideate together

As part of Catalyst, meet with our experts and run an envisioning workshop, where we can ideate together using design led thinking concepts and jointly define how to enable the digital transformation of your organisation.

This engagement starts with a review of your business objectives, followed by mutual discovery and visualisation of solutions, ending with a clear, actionable picture of how we can help you reach your business goals.

How DXC Technology can help

DXC Technology is the world's leading independent, end-to-end IT services company serving 6,000 clients from a diverse array of industries across 70 countries. DXC's technology independence, global talent, and extensive partner network deliver transformative solutions that help clients harness the power of innovation to thrive on change.

What is Microsoft Catalyst?

Build, plan, and execute business transformation strategies with a proven, innovative approach from Microsoft Catalyst—an envisioning and planning program that employs Microsoft Dynamics 365, the Microsoft Power Platform, and the Microsoft Cloud. Your business transformation starts with an I.D.E.A.

Start by finding the transformation strategy that's right for you. Define and prioritize your strategy using development activities, then foster ideation and drive decision making with an envisioning workshop.
