

Microsoft 365

Migrating to OneDrive and SharePoint

Eric Warnke

Principal program manager

Microsoft

(former founder and CEO of Mover)

March 6, 2021

Covering our bases

SharePoint Server 2010, 2013, 2017

File shares

Cloud storage providers

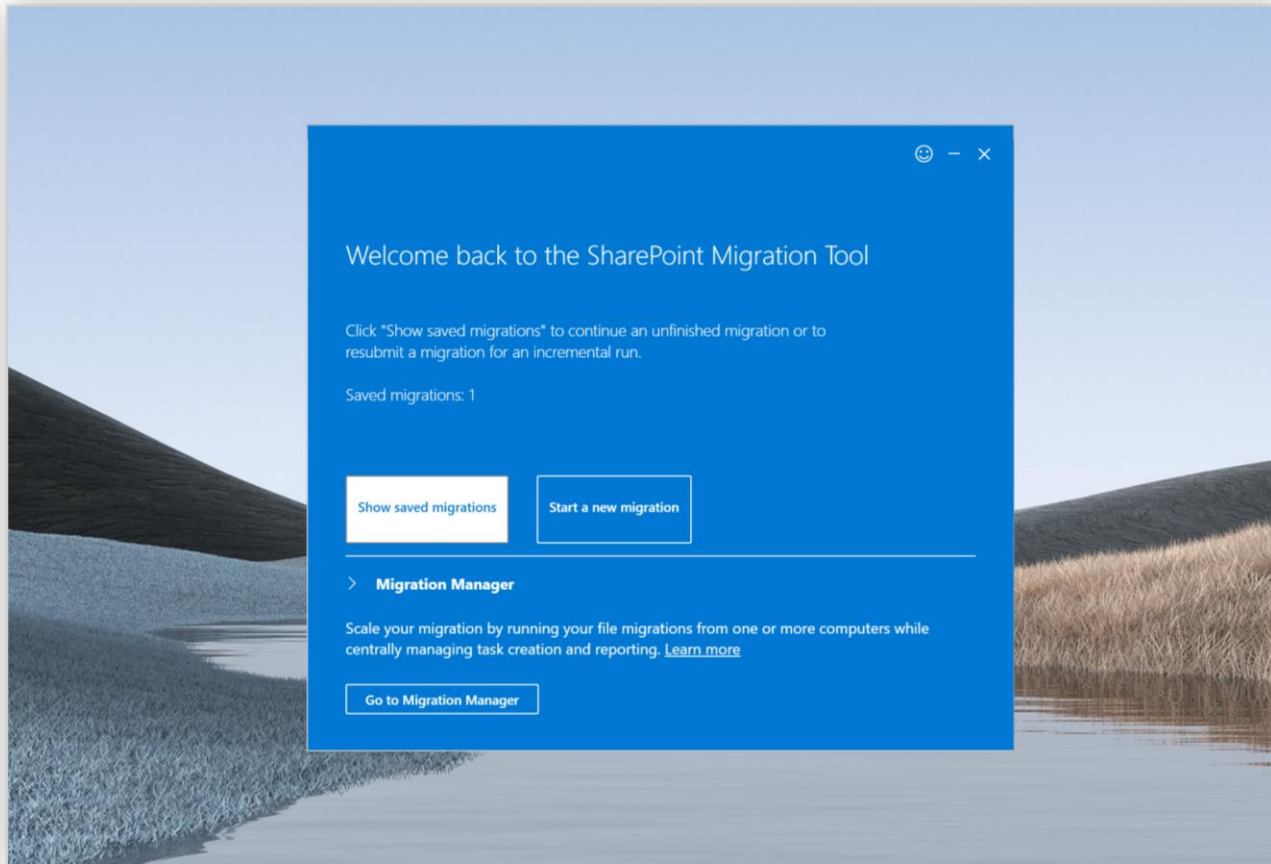

Question #1

What type of migration are you planning?

Question #2

If moving cloud-to-cloud, from which provider are you moving into Microsoft 365?

SharePoint Migration Tool

- Standalone tool
- Requires SharePoint admin account
- SharePoint 2010, 2013, 2016
- File shares

Migrate files to Microsoft 365

The Migration Manager (Preview) helps you manage enterprise-scale migrations of network file shares to the cloud. [Learn more](#)

Here are the steps:

1. Install the agent setup file.
2. Create migration tasks. Monitor progress and download reports from one central location.

[Download agent setup file](#)

Tasks **Agents**

VM13416	ConstosoDevice4	● Enabled	11/21/2018 07:30 PM

Demo

Migration Manager

Mover

The screenshot displays the Mover application interface. At the top, there's a navigation bar with the Mover logo, 'Transfer Wizard', and 'Migration Manager'. Below this, a dropdown menu shows '3 | Box (Co-Admin) => Office 365 (mover.io) 09/07/20 11:42 pm'. The main dashboard features several key metrics: 'Transfers (20 / 20)' with 10 New, 0 Running, 9 Complete, 1 Issues, and 0 Failures; 'Files' with 238,037 Complete and 0 Issues; and '0 Bytes' with 0 Issues. A blue bar indicates '1 user selected | Box (Co-Admin) to Office 365 (mover.io)'. Below this, there's an 'Active Filters' section with an empty input field. The main content area is a table with columns for 'Last Start Time', 'Last End Time', 'Status', 'Source Path', and 'Destination Path'. A context menu is open over the table, listing options like 'Display Density', 'Comfortable', 'Cozy', 'Compact', 'Gridlines', 'Edit Permission Map', 'Add to Migration', 'Update Migration', 'Scan Reports (zip file) 0 / 20 scanned', 'Migration Report', 'Migration Table Report', 'Migration Error Report', 'Stats Off', 'Customize Columns', 'Reorder Columns', 'Save Column State', 'Refresh', and 'Delete Migration'. A 'Start Migrating 1 User' button is visible on the right side of the interface.

Last Start Time	Last End Time	Status	Source Path	Destination Path	Files Failed	Files Skipped	Files
2020-07-09 17:43	2020-07-09 18:13	Scan complete	box /lidiah@mover.io	/LidiaH@mov			
2020-07-09 17:47	2020-07-09 18:14	Scan complete	box /christiec@mover.io	/ChristieC@m		4,928	7?
2020-07-09 18:14	2020-07-09 18:45	Scan complete	box /pattif@mover.io	/Pattif@mov		4,928	7?

- Third-party app
- Currently integrating into Microsoft 365
- Supports many cloud scenarios
- Basis for future migration infrastructure in OneDrive and SharePoint

Mover

What next for OneDrive and SharePoint migrations?

Migration Manager: New cloud-to-cloud migrations

- Google Workspace
- Dropbox
- Egnyte

Planning and reporting tools

- Reduce friction when getting started
- More knowledge before a migration

SharePoint Server fidelity

- Enhancing our tools to transition more customers intact to the cloud
