

## Wipro's SAP Services for Microsoft Azure

Creating a roadmap for a digital future  
through risk-free migration to Cloud

SAP implementations are becoming increasingly complex, while applications are under constant pressure to perform on various business metrics. Companies of all sizes can take advantage of the various benefits provided by Microsoft Azure to achieve business agility, cost savings and high availability by running their SAP environments on the Azure Cloud.

## Key takeaways

Wipro has leveraged its OS/DB migration experience in building a robust SAP Cloud migration framework called, 'Safe passage to Azure Cloud' and Wipro's proprietary tooling framework called, 'MigMan (Migration Manager)'.

## Business benefits

- **Lower TCO and CapEx** - benefits from the economies of scale and efficiency provided by Microsoft Azure and Wipro (approximately 20–50% efficient)
- **End-to-end ownership** - Wipro's proven, 'Safe Passage to Cloud migration approach and 'Cloud Command Center' operations enables end-to-end ownership of the outcome
- **Agility and speed** - Provision for new SAP systems in minutes, compared to waiting time of weeks or months
- **Flexibility** - Multi-platform support including, S/4HANA, BW/4HANA support for SAP digital future
- **Subscription based pricing model** - PMC (Partner Managed Cloud) service provides end-to-end services, including SAP application licenses with as-a-service model
- **HANA solutions** - Wipro's ready-to-deploy, pre-configured SAP S/4HANA industry templates for faster realization of digital future

## Our expertise

Wipro is a premium consulting partner with Microsoft on SAP competency. Our **Boundaryless Datacenter (BLDC)** is a reimagined services platform that serves as a focal point for hybrid IT and has integrations into on-premise DC, hosted DC, private and public Clouds. We have:

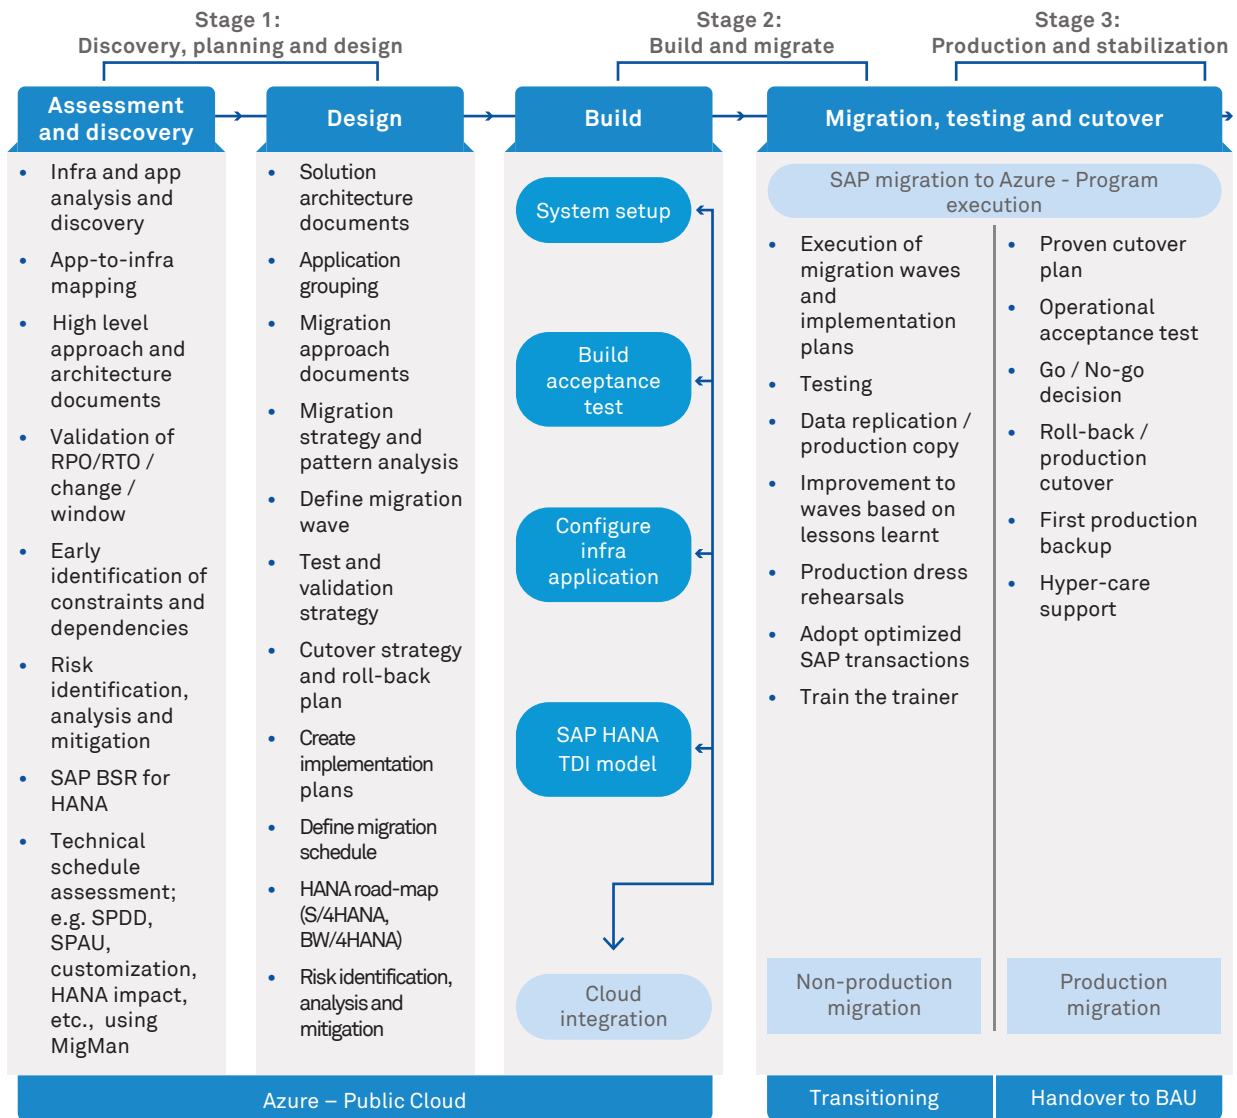

- **1000+** migration experts including, SAP-certified OS/DB migration and SAP HANA consultants
- **150+** SAP migration/upgrade engagements
- **20+** migration/upgrade tools, levers and accelerators including auto provisioning, auto scaling and Cloud resource life cycle management
- **5** service offerings, including Cloud assessment and advisory services, migration, transformation and management services

**SAP best practices, cookbooks, tools and accelerators that aim at delivering an on-time, on-budget, non-disruptive and risk-free migration to Microsoft Azure Cloud.**

## Success story

- For a **leading American technology giant**, Wipro migrated over 38 production and non-production SAP systems to Azure Cloud, enabling scale on demand and TCO reduction. The migration was completed in 14 weeks' time with a downtime of two hours by using automated scripts during production cut-over
- For a **leading Norwegian retailer**, Wipro migrated SAP workloads to Azure Cloud, providing them benefits of scalability, high compute power coupled with unbeatable focus on security and compliance

# Safe passage to Azure Cloud

Set deployment goals and critical success measures

Near-zero business downtime  
No impact on in-flight programs

Knowledge repository from past projects

Quality and risk management

Project governance and communications management
