

Channel Sales Manager fully integrates your sales platform with Microsoft Dynamics Business Central, giving you actionable insight – all in one place.

ABOUT SUITE ENGINE'S CSM:

Channel Sales Manager (CSM) is a fully integrated management tool to connect your sales platform (Amazon, Magento, Shopify, and a growing list of platforms) with Microsoft Dynamics 365 Business Central. Built on the latest Microsoft technologies, CSM enables you to manage and grow your eCommerce business effectively and efficiently from a single location. This is centralized management at its' best!

WHY CHANNEL SALES MANAGER:

Eliminate manual data entry – save time and increase accuracy when entering inventory, orders, customers, items, and shipping methods.

Manage product information and pricing on specific items and have accurate inventory updates visible to customers.

Account for sales taxes calculated and collected by your platform and the flexibility to add channels.

Handle increased demand for online orders without adding extra resources and expenses.

WHAT OUR CUSTOMERS ARE SAYING

“With Channel Sales Manager from ArcherPoint, we’ve improved our supply chain management in terms of quantity sharing, synchronizing prices on each channel, and time savings on order processing.”

– Jerry Qu, Owner/President, Qbedding

Microsoft Dynamics 365

Transform on your terms with Microsoft Business Applications. Enable people to do their best work. Gain actionable insights. Thrive with solutions expressly built for change. Unlock next.

KEY USE CASES

SALES

Respond to changing business requirements with a flexible platform to rapidly create new solutions and ensure old solutions are never truly finished.

SERVICE

Understand your customers better and respond more quickly by accessing internal and external relationship data.

FINANCE AND OPERATIONS

Increase your return on investment with our agile and efficient Microsoft cloud solution.

TALENT

Extend your virtual team and coordinate faster with a consolidated view of team members, activities, and responsibilities.

MARKETING

Gain end-to-end visibility by connecting data from external markets, social, and legacy sources.

WHY MICROSOFT DYNAMICS 365?

Modern applications that deliver new experiences and connect with businesses' existing systems to allow organization to digitally transform their own way. Applications that use mixed reality, the ability to take an application that overlays on the reality in front of users, that guides them through a business process like never before. Connect to information from social networks, mobile devices and micro-applications to drive intelligence and inform a more effective business process.

Unified data and processes that enables business without silos. Centralized data enables disparate groups to work together effectively via a single, trusted view of processes, relationships, and data. Data connectors allow thousands of systems to bring their data into a single network.

Intelligence that delivers actionable insight. Data in the new world includes social, relationship, and productivity information, in addition to insights generated by business systems. The right solution requires a unified approach that allows companies to automatically leverage their data to decide and act in real time with expanded analytics, predictive algorithms, and automated artificial intelligence.

An extensible environment that enables change. The right solution establishes a data, communication, and application environment that makes it easy to evolve and extend existing business operations, while introducing technologies that enable users to create solutions where no solution exists and to expand data analysis.
