PSP Connect

Process orders and reconcile payments fast and easy from multiple different payment providers.

www.n3vis.com

What is PSP Connect?

PSP-Connect is a Microsoft Dynamics NAV / Business Central A. It integrates multiple Payment Service Providers within one App, providing an end-to-end automated solution for the Order to Cash process. It is available as stand-alone modules - Order To Capture (O2C) & Cash To Reconciliation (C2R).

Features:

Sales Orders can be created, updated, cancelled and activated/captured from within Business Central

Handles transactions from ecommerce sites and in-store purchases

Auto-import of PSP settlement files into Business Central

Payments and Refunds are auto-matched against Sales transactions

Unmatched Payments are identified and can be processed separately or at a later date

Fees, Commissions and VAT can also be calculated and handled automatically

Quick and easy Assisted Wizard setup

Supported Payment Providers

- KLARNA
- COLLECTOR
- QLIRO
- ADYEN
- SVEA
- PAYPAL
- AND MORE
