Microsoft 365 with Intelligent Content

Intelligent Content for the Enterprise — Machine-readable documents, Compliance, XML Standards — all in one convenient subscription with M365. As low as a dollar a day.*

*Minimum purchase required.

One tool for all enterprise users

Familiar Word interface

XML Standards within Word

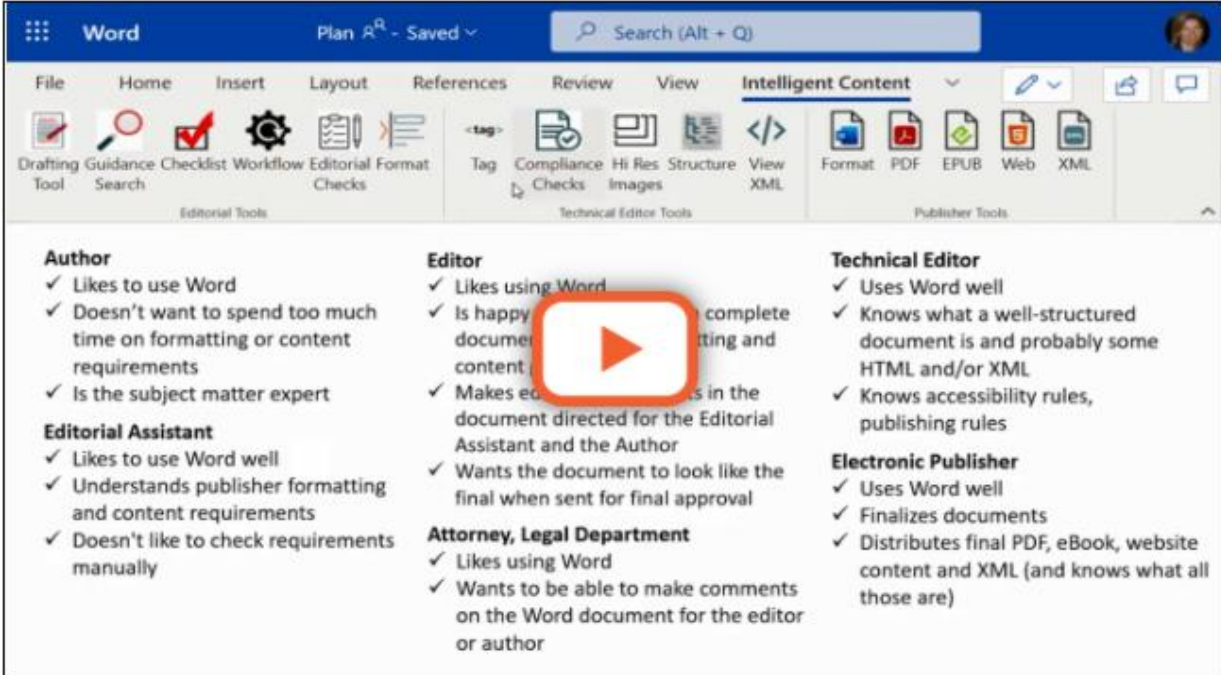

Supports all types of documents

Document workflows are too complex and dysfunctional in enterprises. Intelligent Content software enables you to modernize and streamline document workflows with Microsoft 365. Intelligent content software has reduced time, improved compliance and reduced cost for many types of documents including Policies and Procedures, Contracts, Research Publications, Technical Publications, and Marketing documents.

Document Tools for each Role

Intelligent Content software includes tools for authors, reviewers, editors, analysts, and publishers to easily contribute to the document workflow. This includes real-time collaboration, easy access to research and integration with enterprise systems.

Watch Video

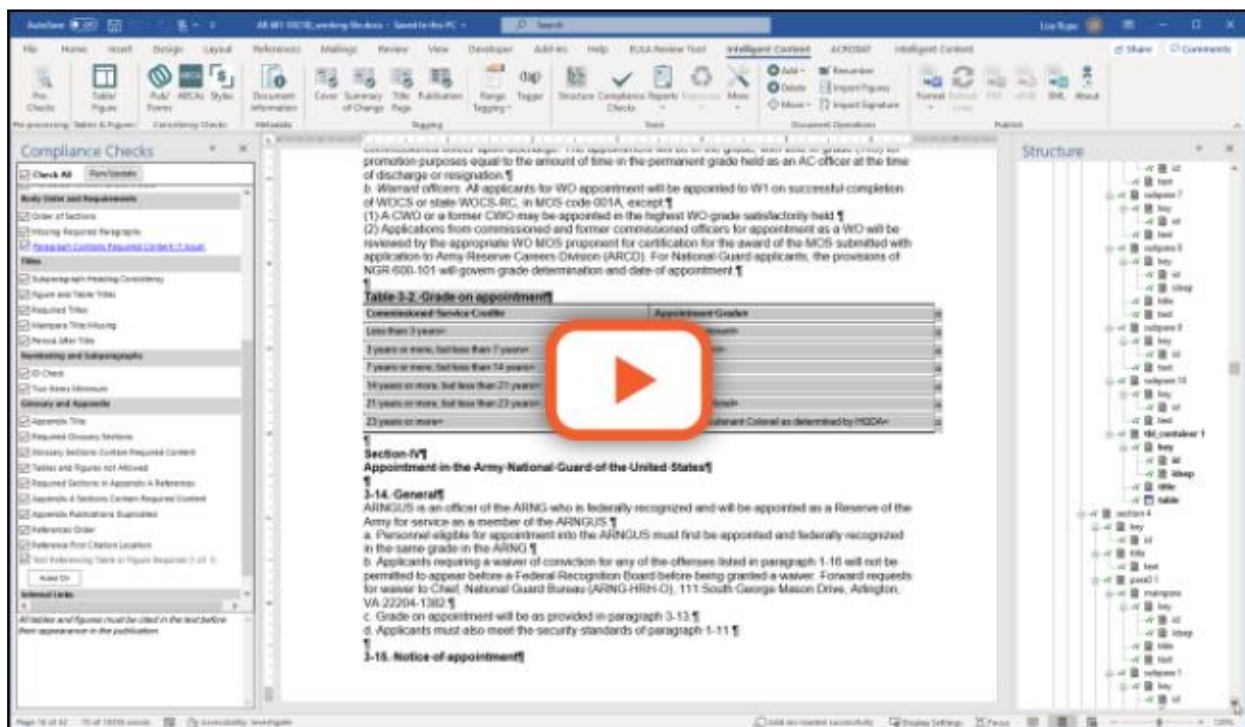

The screenshot shows the Microsoft Word ribbon with the 'Intelligent Content' tab selected. The ribbon is divided into three sections: Editorial Tools, Technical Editor Tools, and Publisher Tools. Below the ribbon, there is a video player overlay with a red play button. The video content lists characteristics for various roles:

Role	Characteristics
Author	<ul style="list-style-type: none">✓ Likes to use Word✓ Doesn't want to spend too much time on formatting or content requirements✓ Is the subject matter expert
Editorial Assistant	<ul style="list-style-type: none">✓ Likes to use Word well✓ Understands publisher formatting and content requirements✓ Doesn't like to check requirements manually
Editor	<ul style="list-style-type: none">✓ Likes using Word✓ Is happy to complete documents and content✓ Makes editorial suggestions in the document directed for the Editorial Assistant and the Author✓ Wants the document to look like the final when sent for final approval
Attorney, Legal Department	<ul style="list-style-type: none">✓ Likes using Word✓ Wants to be able to make comments on the Word document for the editor or author
Technical Editor	<ul style="list-style-type: none">✓ Uses Word well✓ Knows what a well-structured document is and probably some HTML and/or XML✓ Knows accessibility rules, publishing rules
Electronic Publisher	<ul style="list-style-type: none">✓ Uses Word well✓ Finalizes documents✓ Distributes final PDF, eBook, website content and XML (and knows what all those are)

Compliance with Standards

Ensure compliance with organizational standards as well as industry standards, including Department of Defense and publishing industry standards.
