

# The Admin Panel of Modern Requirements4DevOps

In this article we cover how to use the Modern Requirements4DevOps admin panel to enable and disable particular features in each MR4DevOps module.

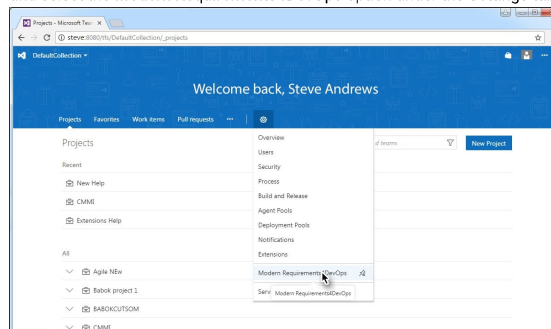

## TABLE OF CONTENTS

- [Navigating to the Admin Panel](#)
- [Admin Panel – General Tab](#)
- [Admin Panel – Review Tab](#)
- [Admin Panel – Baseline Tab](#)
- [Admin Panel – Services Tab](#)
- [Contact Support](#)

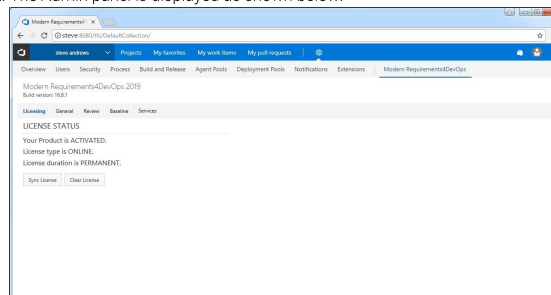

The Admin Panel is a feature in the embedded version of Modern Requirements4DevOps. It's used for licensing options, plus configuration and tweaking of many options (present in various modules of the application).

## Navigating to the Admin Panel of Modern Requirements4DevOps

1. To access the Admin panel, launch the embedded version of the application and select the **Modern Requirements4DevOps** option under the **Settings** tab.

2. The Admin panel is displayed as shown below:
