# You only have so many hours in the day

Project managers main task includes seeing the project through. This involves understanding individual contributions, removing roadblocks and ensuring project velocity is maintained.

A cornerstone of this, is efficient communication, productive meetings and transparency between team members.

## CHALLENGES

Too many channels of communication  
Losing track of time and notes discussed  
Trouble scheduling  
Time consuming meetings

## IDEAL SOLUTION

One integrated platform of communication  
Contributions are tracked and organized  
5-min scheduling process  
Shorter, fewer meetings

## DESIRED OUTCOMES

Transparency of individual contribution  
Get help faster and easier from the team  
Blockers are quickly resolved  
Overall team morale boosted

# Introducing ScrumGenius

Make your stand-up meetings shorter and more productive

ScrumGenius allows your team to report their daily progress in an easy and effective way. It integrates natively with Microsoft Teams.

## VALUE STATEMENT

ScrumGenius helps drive new digital efficiencies for organizations. ScrumGenius allows your team to complete their daily scrum on their time, escalate issues to the right resources immediately, and encourages the discipline of planning out and being held accountable for their day.

## SOLUTION BENEFIT

ScrumGenius improves communication between team members so they can save time, boost their productivity and achieve the daily goals they set. ScrumGenius collects and organises your teams reports that would otherwise get lost in emails, online forms or private chats.

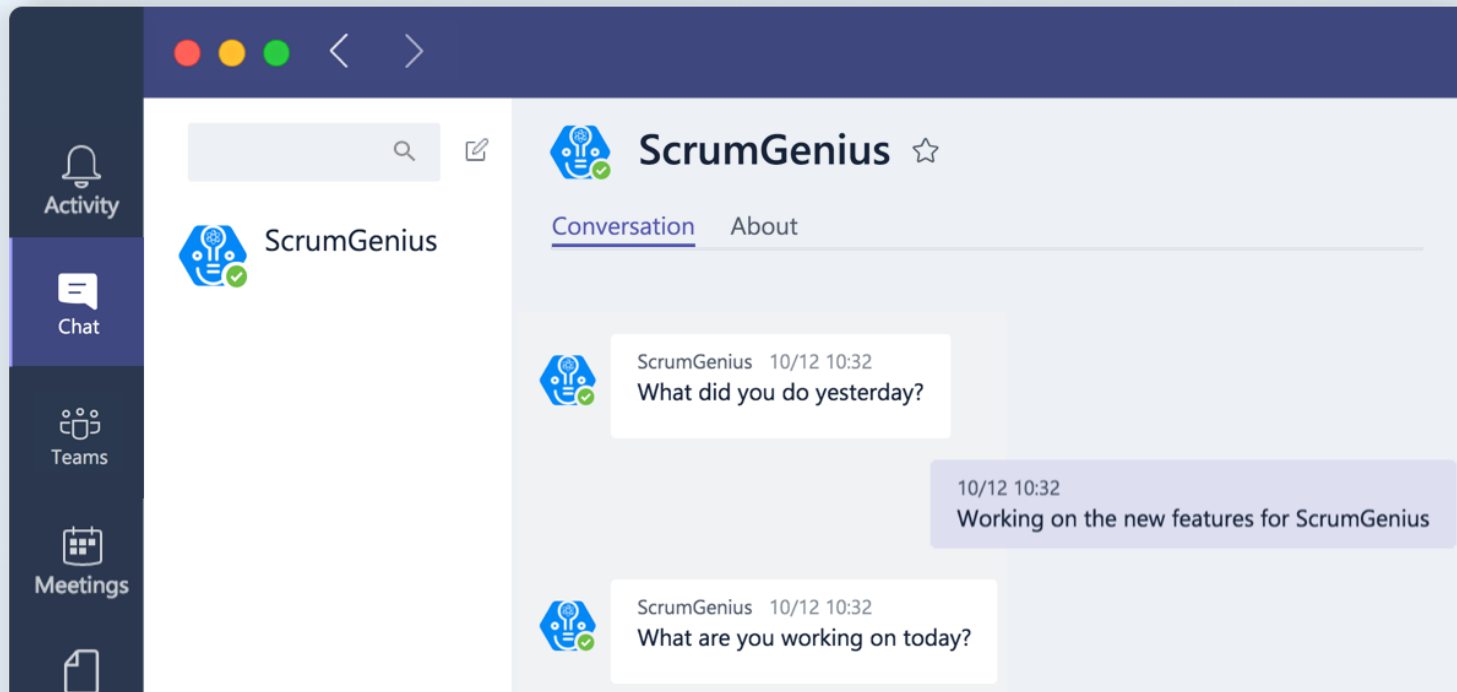

## INTEGRATION BENEFIT

ScrumGenius is available as a Microsoft Teams app solution. Our native integration allows your team members to submit their updates through their existing Microsoft credentials. Our Single-Sign-On feature allows you and your team to login via your Microsoft Account for secure password-less access.

# ScrumGenius + Microsoft Teams

ScrumGenius is available as a Microsoft Teams app solution. Our native integration allows your team members to submit their updates through their existing Microsoft credentials. Our Single-Sign-On feature, allows you and your team to login via your Microsoft Account for secure password-less access.

## Automate team status meetings on Microsoft Teams

## MICROSOFT TEAMS BOT

ScrumGenius will contact your team via our bot in Microsoft Teams. The answers from each team member are privately collected via chat, within a matter of minutes. Our native integration offers you a seamless experience while using Microsoft Teams.

## SINGLE-SIGN-ON

ScrumGenius has support for Single-Sign-On with Office 365 tenants. After ScrumGenius is setup with Microsoft Teams, your team will be able to access our application using their existing Microsoft credentials.

## CHANNEL BROADCASTS

When a stand-up report is ready ScrumGenius can compile the answers and distribute it to a #channel in Microsoft Teams, where your team hangs out.

## How ScrumGenius Helps New Zealand's Local Government Team Communicate Better

“ ScrumGenius is an extremely useful tool to facilitate team stand-ups. It has helped our teams to run more efficient and effective meetings, in cases cutting them down from 2 hours to just 20 minutes. Before, the walls were plastered in many out-of-date post-it notes. Now, we have better routines and self-discipline.

## How SickKids Made Meetings Painless for Their Developers with ScrumGenius

“

ScrumGenius has helped us to reduce the number of meetings, so the quality of time went up. We went from 20 disruptive meetings a month to one status meeting every Friday that is productive and goal oriented.
