## From training providers, to employers, and from colleges to universities, Aptem makes life easier for providers and learners.

“Aptem has been one of the key drivers behind Corndel’s growth, as it has increased our operational efficiencies and simplified many of our processes. We also save a lot of time by using Aptem, as we don’t need to enter the same data twice and staff only have to learn one system that does everything. This has enabled us to spend more time focusing on quality, creating engaging learning journeys that meet the needs of our customers and their workforce.”

**Mushall Khan,**

Chief Operating Officer, Corndel

“Prevista deliver quality vocational and employability provision to young people and adults and we have successfully, extensively used Aptem for over five years. Aptem is a transformational platform which de-risks compliance and Ofsted, and puts providers, learners and employers in the driving seat – it is a true end-to-end solution rather than one based on “legacy” platforms and is ahead of the curve. Put simply, Aptem is the best technology platform in the sector. Aptem is a key component of our Apprenticeship growth plans. The MWS implementation team is exceptionally helpful and take the pain out of new programme roll-outs.”

**James Clements Smith,**

Managing Director, Prevista

“Having worked over 15 years in the skills and employability sector, including leading some of the largest providers, I have seen numerous technology systems. My colleagues and I selected Aptem for BlackRock Training because its end-to-end design, comprehensive functionality and superb support, in our view, make it the leading system on the market.”

**Peter Brooks,**

Managing Director, BlackRock Training

“We chose to work with Aptem, after looking at several alternatives, as the entire learning journey (from sign up through to EPA) is embedded into the platform. This saved us money as we could consolidate a number of existing systems in one. Additionally, the investment required demonstrated exceptional value for money and the level of customer service is refreshingly ‘on it’.”

**James Taylor,**

Commercial Director, HTFT Partnership

“Aptem was chosen because of its comprehensive design & functionality. Implementation was fast, and the training we received was excellent. We also have ongoing support from Aptem which is responsive and helpful. Our team are feeling confident and positive about growing our Apprenticeship delivery with Aptem.”
