# Trustwave Services for Microsoft Azure Sentinel

Trustwave CPS and Managed Services support Microsoft's cloud-native SIEM

## Consulting and Professional Services

**Azure Sentinel Assessment, Readiness & Maturity**  
Pre-deployment planning to help clients identify when they are ready to implement a cloud-based SIEM.

**Azure Sentinel Deployment & Optimization**  
Initial configuration, policy creation and baselining of a new Sentinel deployment. Optionally, optimize and tune an existing Sentinel deployment.

**Azure Sentinel Continuous Improvement Program**  
Recurring policy review and optimization of an Azure Sentinel deployment.

## Managed Security Services

**Ongoing System Management**  
Policy and rule monitoring for Microsoft Azure Sentinel and Microsoft Defender Advanced Threat Protection (MD ATP).

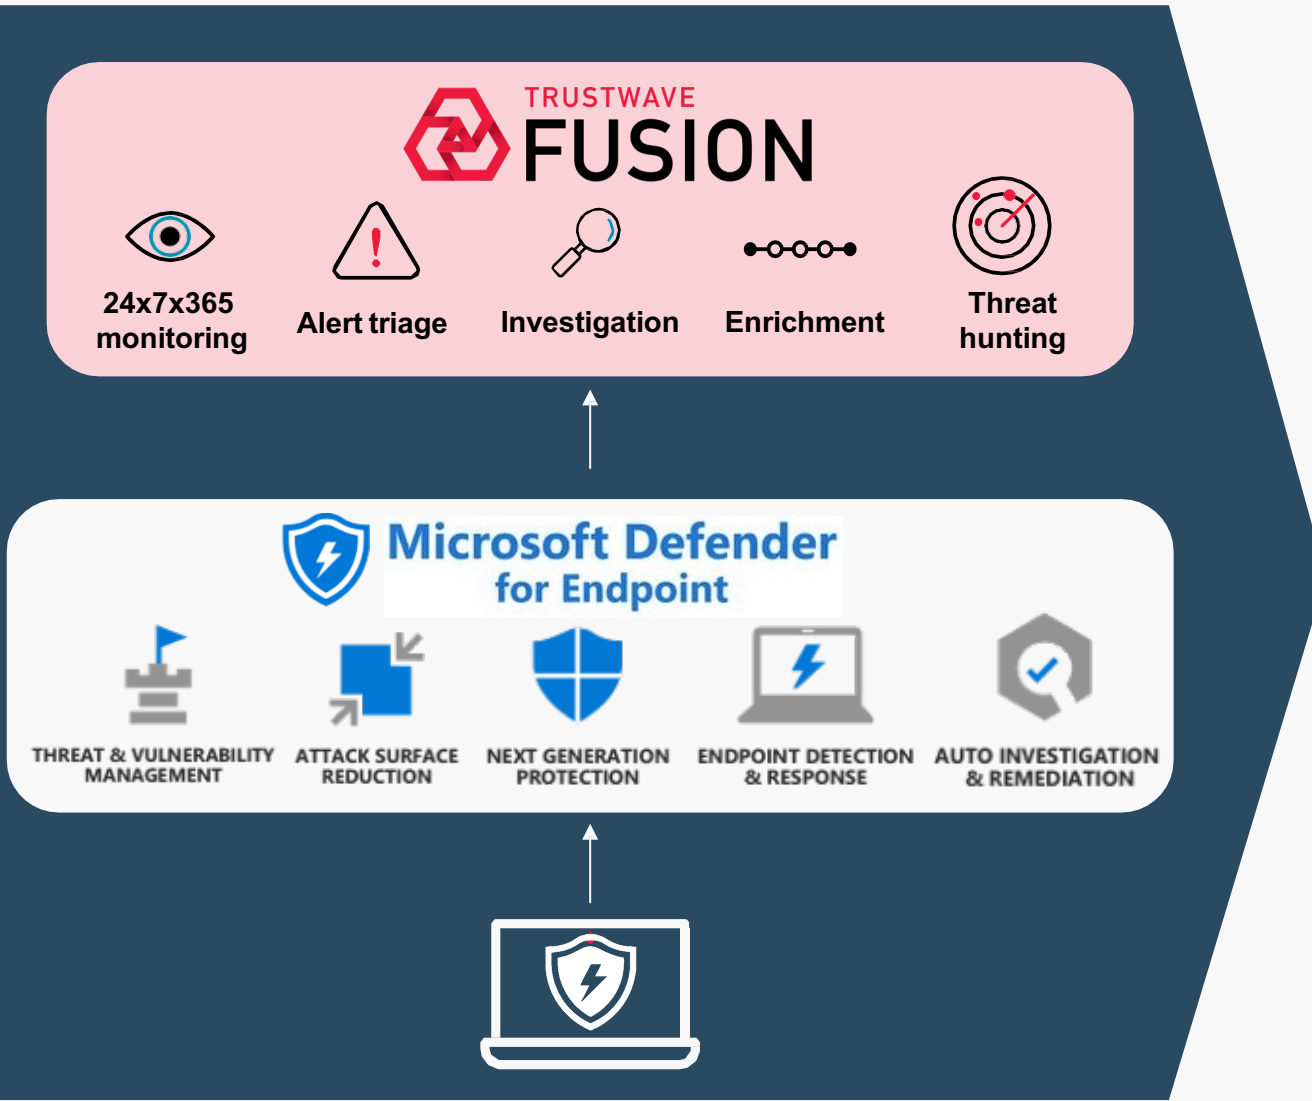

**Trustwave Managed Detection & Response**  
Real-time triage, investigation, response and remediation of security threats through ingestion of data from Microsoft Azure Sentinel.

# Trustwave Services for Microsoft Defender

Collecting, detecting and eradicating threats with Microsoft Defender for Endpoint

## Consulting and Professional Services

### Assessment, Readiness & Maturity

Pre-deployment planning to help clients identify when they are ready to purchase an EDR solution.

### Deployment & Optimization

Initial configuration, policy creation and baselining of a new Microsoft Defender for Endpoint deployment. Optionally, optimize and tune an existing deployment.

### Continuous Improvement Program

Recurring policy review and optimization of a Microsoft Defender for Endpoint deployment.

## Managed Security Services

### Security Technology Management

Ongoing configuration management and baselining of a client's Microsoft Defender for Endpoint deployment.

### Managed Detection & Response

Threat detection and Investigation services across actionable alerts received from Microsoft Defender for Endpoint in combination with other monitored solutions.

# Trustwave Value to Customers

## Partner with Experts

Trustwave is a global MQ Leader in Managed Security Services. Unlike technology vendors this is all we do, and we offer best-in-class SLAs for detection and response.

## Accelerate Time to Value

Trustwave's team of experts can get customers up and running quickly - reducing time and upfront costs typically associated with a customer adopting a new technology on their own.

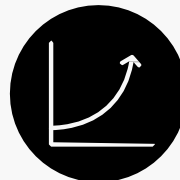

## Custom Configuration and Tuning

Trustwave optimizes the technology platform based on the customer's specific enterprise architecture ensuring they're up and running in days not months.

## Global Security Operations

Trustwave ensures its customers can focus on strategic business drivers by acting as their remote 24x7x365 SOC, ensuring they are protected from current and future threats that avert breaches.

## Advance Your Security Posture

Trustwave helps you protect against advanced threats, diminish your attack surface, identify new risks, and respond to and recover from incidents in minutes, not days.
