Your order processing is not flexible enough?

agiles Sales Conditions is your solution!

Summary

With the agiles Sales Conditions app, you can easily give multiple discounts per header or line to your customers. In addition, the app enables you to discharge your discount account and to set up accruals at the push of a button.

Target Group

The application enables all companies which use Microsoft Dynamics 365 Business Central to increase the flexibility of their order processing. Be it discounts or accruals, you no longer need to find complicated workarounds.
Save time and energy and simplify your work life!

Highlights

- ✓ Filter your conditions by (sub-)groups
- ✓ Create master data groups to which your conditions apply
- ✓ Update your master data groups at the push of a button
- ✓ Define the order in which different discounts are applied
- ✓ Determine the priority in case of competing discounts
- ✓ Discounts can optionally be settled via a separate document line (as charge/item)

Benefits

- ✓ Give multiple discounts per header or line
- ✓ Set up discounts for every customer, item or time period you want
- ✓ Discharge your discount account at the push of a button
- ✓ Easily set up accruals
- ✓ Install the app and start using it right away
- ✓ Easily set up your conditions using the wizard
