

# A better path forward.

Free through 2021

## Introducing ProtectWell™ from UnitedHealth Group.

Our loved ones, co-workers and friends rely on our word that we're feeling healthy enough to interact. Using ProtectWell as the standard to verifying healthy status, ensures every person attests to being symptom-free, every day. It's the simplest way to get back together while helping the world stay ahead of the spread.

### It's more than a symptom checker.

- ✓ Simply designed for every day use
- ✓ Quickly connects users to care and information
- ✓ Contributes to the greater good
- ✓ Keeps your privacy top-of-mind

## Touchpoints and Features

### ProtectWell App

- Symptom checker with health status clearance, guidance to manage symptoms at home, or if applicable, get tested
