

Sales Order Status in Microsoft Dynamics 365 Business Central

You always want to have an up-to-date overview of the status of your sales orders in order to identify bottlenecks early on and react accordingly?

Highlights

KUMAVISION's "Sales Order Status" app for Microsoft Dynamics 365 Business Central provides you with a simple and visual display of various status messages for your sales orders at item level:

- Availability Status
- Warehouse Status
- Pick Status
- Shipment Status
- Invoice Status

All views can be filtered several times.

The existing signal lights can also be replaced by icons of your choice.

Your benefits

- Maximum **transparency** through visual representation
- Short **reaction time** in case of bottlenecks in warehouse and logistics
- **Prompt invoicing** for booked shipments
- High **customer satisfaction** due to fast information capability on the availability of articles
- Short-term **provision of information** to management
