

Microsoft Defender for Endpoint

A unified endpoint security platform for prevention, post-breach detection, investigation, and response.

Microsoft Defender for Endpoint is a complete security solution powered by the intelligent cloud that protects endpoints from cyber threats, detects advanced attacks and data breaches, automates security incidents, and improves security posture. It offers a rich set of APIs to build integrated solutions. Security and data privacy are the priorities of the platform.

Agentless and cloud-powered – built into Windows 10, requires no deployment or infrastructure; Always up to date.

Unparalleled optics - built on the industry's deepest threat insights and shared signals across domains enables synchronized defense and faster response.

Automated security - out of the box automation enables security teams to go from alert to remediation in minutes—at scale.

Managed Detection and Response for Microsoft Defender for Endpoint

Staying on top of threats is tough for even the world's largest organizations: Red Canary arms you with the security expertise and technology you need to detect, investigate, and remediate cyber threats that bypass your preventative controls.

Your teams are overloaded: Adding Red Canary strengthens your defenses and instantly allows you to cover more attacker techniques and gain back hours of the day. With Red Canary as an extension of your team, you'll improve security overnight.

Hunting down and stopping adversaries requires constant attention: Red Canary's proven 24x7 security operations team are masters at finding and stopping threats and with Red Canary's automation platform you can quickly remediate and get back to business.

CUSTOMER BENEFITS

- 24x7 peace of mind – cover your gaps and give you a set of eyes on our environment
- Added capacity and expertise - gives you the expertise and staff you need
- Freedom to focus on what matters – offload alert overload so you can improve your environment
- 10x detection coverage and waste no time on false positives
- Security analysts reviewing all your Microsoft Defender for Endpoint raw telemetry and alerts
