Real-time and mobile Expense Management

✓ Easy for employees

✓ Comprehensive for finance teams

As the 2nd largest expenditure for companies - after wages -, Travel & Expense should be a priority for all finance teams to control costs and reduce friction. With Rydoo Expense, introduce a fully integrated, paperless and cost effective expense management process that will reduce the manual inputs and make your employees happy.

How is Rydoo different?

1 — Real-time expensing

Grab a smartphone, download the app. You are ready to go. Employees snap pictures of their receipts anywhere and send it for approval in real-time.

2 - Fully automated

Integrate Rydoo to your ERP system — SAP, Oracle, Micro-soft dynamics ... - to create a seamless flow. Accounting ledgers, project codes, lunch attendees, all the data is set before reaching accounting.

3 - Up and running in no time

Through knowledge-sharing we give our clients full power over their platform and allow them to be fully autonomous. Your company can start using Rydoo Expense within a few days of configuration.

What's in it for employees?

- Save time with real-time expensing
- No more administrative burden
- Faster reimbursement

What's in it for accounting teams?

- No more peaks of workload
- Better visibility
- Better control

What's in it for CFO's?

- Real-time insightful data
- Cost control
- Better decisions

The features that will make the difference

Digital Compliance

The "Certified as True" process created by Rydoo guarantees that each expense is time stamped, authenticated with a unique digital signature and always comes with an audit trail allowing the digitization to be fully compliant with all countries regulations.

VAT Reclaim

Rydoo automates the VAT calculation for each receipt and extract all the data you need for your VAT reclaims. Don't want to go through the hassle, use our partners. They integrate with Rydoo and get all your data in real-time to get you all that money back.

Mileage

Setup one or several vehicles for each employee, personalize the reimbursement amount for each distance, and create the easiest mileage flow with Google maps. Employees simply enter their destination and everything is calculated automatically.

Per diems

Per diems are supposed to make things easy. With Rydoo, it really is. The per diem lists and imported into the platform and travelers simply enter their destination and Per diems are automatically calculated. Need to subtract dinner, nothing is easier, simple untick a box.

Security

As a European company, Rydoo is bound to comply with GDPR. Rydoo does not require the end user to fill in any highly sensitive personal data and is fully transparent on the data collected and its purpose. Our data centers are ISO 27001 certified and all within the EU.

Multi-branches management

Manage all your businesses in one platform by creating different branches within Rydoo. Each branch can have its own rules, approval flows and reporting. You can set-up a global role to oversee all branches activities from one screen.

500K+ professionals across 60 countries are using Rydoo
