As a leading provider of infrastructure managed services, Navisite can engineer your infrastructure for growth and efficiencies.

Building the right infrastructure for your organization is no simple task, but it's become imperative for today's IT leaders. Creating a robust, flexible and secure infrastructure is not only about protecting your investment, it's about empowering your company to create new opportunities for efficiencies and growth. But if you're like most companies, you lack the necessary resources to build, invest and manage an agile infrastructure.

### FOCUS ON INNOVATION AND LET NAVISITE HANDLE YOUR INFRASTRUCTURE

Navisite has the expertise and scale to help you optimize the business of IT, enabling your organization to be an industry leader. Our people, processes and solutions are geared to transform your infrastructure to be more resilient, secure, flexible and cost effective. As a leading technology partner, we deliver unbiased guidance on a best-fit cloud or hybrid solution to organizations worldwide.

When you partner with Navisite, we offer more than simple migration and infrastructure management.

Our turnkey managed infrastructure and hosting solutions provide 24x7x365 support for all environments—on-premise, in the cloud, in a private cloud or a hybrid solution. Collaborating with your IT and business leaders, our skilled architects design custom solutions that enhance your ability to meet business goals and refocus your efforts on growth and market initiatives. All services are backed 24x7 by service level guarantees and save customers 30-60% over traditional support costs.

### FLEXIBLE AND SCALABLE MANAGED SERVICES FOR ANY ENVIRONMENT

Navisite delivers comprehensive managed services for any environment you choose— whether deployed on-premise, in the cloud or using a hybrid model. This provides the ultimate flexibility to find and manage the deployment option that's right for you. As your partner, Navisite can help in the following ways:

- Manage your on-premise infrastructure remotely
- Manage your public cloud infrastructure
- Manage your infrastructure in Navisite's private cloud
