

Weaveworks AKS + GitOps QuickStart

Accelerate your journey to Azure Kubernetes Service with GitOps

Excited about the opportunities of Cloud Native development, GitOps and managed Kubernetes by Azure - but not sure how to navigate your organization on to the path to success? Whether your team has already used Kubernetes in the cloud or behind the firewall they need battle-tested architectures, workflows and skills to operate AKS reliably. Weaveworks AKS + GitOps QuickStart is a comprehensive package to design, build and operate AKS in production using the GitOps methodology.

Weaveworks' experts will engage with your infrastructure, operations and application management team members to help design and build a production ready application and reliable platform.

The QuickStart begins with an instructor lead GitOps training course, followed by an architecture discovery and design workshop for a green field production cluster. Your success is important to us and we include 2 days of follow on professional services (up to 6 months from the initial engagement).

Also included is a Weaveworks Kubernetes Platform (WKP) subscription for up to 10 nodes on AKS with global support for 1 year.

What's Included

Pricing	\$25,000
Kubernetes Architecture Workshop	<ul style="list-style-type: none">Instructor lead workshop on Kubernetes and GitopsUp to 10 students (2 days at customer site)<ul style="list-style-type: none">Add an additional day and up to 10 more students for an additional \$5,000
Production Ready Reference Architecture	<ul style="list-style-type: none">Collaborative review by Weaveworks and customer architectsEstablish quick-start deployment on AKS leveraging WKP and Gitops best practices
Weaveworks Kubernetes Subscriptions	<ul style="list-style-type: none">10 node subscription entitlement for 1 year9/5 ET Mon-Fri supportDedicated Slack channelSecurity updates for the platformPatch updatesSupported hotfix patchesPrometheus monitoring
Professional Services	<ul style="list-style-type: none">Follow on professional services (2 days)<ul style="list-style-type: none">Valid for 6 months after initial workshop and architecture review
SRE Add On Package (+\$7,500)	<ul style="list-style-type: none">Named Technical Account Manager providing a single point of contactQuarterly review of ongoing deploymentDiscounting on subscription of additional nodes
