

# Get mobile documentation done... anywhere

Create documents of any length and edit, format and share them directly from your mobile device—whether at a remote office location, visiting clients, or ending your workday at a local coffee shop—with Nuance® Dragon® Anywhere Mobile professional-grade mobile dictation.

For professionals who work outside the office, paperwork doesn't end when you're away from your desk. In fact, mobile employees are often burdened with heavier documentation demands – client intake forms, reports and more. This documentation can be time-consuming, especially when you don't have the right tools in hand. Dragon Anywhere Mobile makes it easy to create detailed and accurate documents, fill out form-based reports, or complete other paperwork – directly on your iOS® and Android™ smartphone or tablet, all on-the-go. And when synchronized with Dragon for Windows® clients or thin-client workstations, work started in the field can be completed back at the office, seamlessly.

## Maximize on-the-go productivity.

### Improve mobile documentation.

The cloud-based voice recognition in Dragon Anywhere Mobile means you can dictate continuously, without time or length constraints. Once completed, easily share documents and reports via email or popular cloud-based sharing apps, such as Dropbox® and Evernote®\*.

### Create form-based templates to speed field reporting.

Using Dragon Anywhere Mobile's auto-texts feature, it's easy to create fillable forms, such as a client intake form, in just a few steps. Once created, navigate from field to field using simple spoken commands and fill in all the content by voice.

### Enjoy fast and easy editing – all by voice.

Dragon Anywhere Mobile has been enhanced to include the powerful voice-editing and customization features many have come to enjoy from Dragon on Windows clients. Now, it's even easier to not only create rich, detailed documents, but also edit, modify and format them – all by voice.

## Nuance® Dragon® Anywhere Mobile

### Benefits at-a-glance

- Eliminate paperwork backlogs and create documents on-the-go
- Share your dictation with your other devices or colleagues via popular cloud-based sharing services
- Create documents of all types, from long, detailed reports, to forms and quick client notes
- Use simple voice commands to short-cut repetitive steps
- Add powerful customizations to personalize to your needs
- Sync with Dragon Professional Anywhere, Dragon Professional Group and Dragon Professional Individual for seamless productivity

### System requirements

- Compatible with Android 7.0+ phones and tablets
- Compatible with iOS 10.0+ 64-bit phones and tablets (iPhone® 5+, iPod® touch 6+, iPad® 5+, iPad Air, iPad Pro, or iPad mini 2+)
- Active Wi-Fi or cellular connection

**Improve report detail and specificity.**

Dragon Anywhere Mobile delivers optimal recognition dictation accuracy right out of the gate, with no training required. There's no need to decipher handwritten notes or try to recall details from hours before. Dictate in real time to ensure reporting accuracy while capturing client interactions and personal insights that lead to more detailed reports and documentation.

**Boost mobile productivity with customization and personalization.**

Speed up document creation and boost productivity by customizing and personalizing Dragon Anywhere Mobile. For instance, customize words for accurate recognition of specific industry terms you use daily. Or create simple voice commands to short-cut repetitive steps, like inserting standard clauses into documents.

**Cloud-hosted deployment meets mobile freedom.**

The Dragon Anywhere Mobile server component is deployed via its Microsoft Azure hosting infrastructure. The solution may also be deployed as an extension of your installation of Dragon Professional Anywhere, ensuring in-house knowledge workers and on-the-go field employees alike enjoy the freedom of a mobile app on their corporate iOS or Android device.

**Work across devices, seamlessly.**

Seamless synchronization across devices or the latest versions of Dragon for Windows clients means you can remain productive wherever work takes you. Paperwork can be started in the field and completed back at your workstation, with the same customized dictation experience on any device.
