

Experience accelerated and seamless Data Platform Modernization with Datametica

ABOUT US:

We are a Microsoft 'Cloud Platform' and 'Data Analytics' Gold partner. Our team of Azure-certified experts have been automating and accelerating our clients' journey to the cloud for a decade.

See what customers are saying:

"We're impressed with Datametica's willingness to go the extra mile to do the right thing, rather than taking shortcuts. The overall commitment and ownership shown by their leadership was outstanding and was critical in the on-time delivery of the initiative."

– Pramod Patil, Director Product Engineering, Zebra Technologies

WHAT WE OFFER

Datametica gives your data wings.

We provide end-to-end cloud solutions for legacy data warehouse migration, cloud optimization, and data science and advanced analytics. Our years of expertise with cloud solutions has enabled us to develop tools and automation capabilities that ensure your data is modernized securely from data warehouses to Microsoft Azure. Our tools create an automated migration route to aid in planning, executing, transporting, and validating your data.

Modernize your data platform with ease and speed by using our unique accelerators and toolsets. Our tools - Eagle, Raven, and Pelican simplify, expedite, and automate large-scale data platform modernization while minimizing risks, decreasing costs, and transporting your data safely.

Why Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you a head of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
