BLUEGRANITE

Azure Databricks Workshop

1-day Overview, Demo, and Hands-On Labs with BlueGranite

IS YOUR ORGANIZATION EXPLORING AZURE DATABRICKS?

Is your organization exploring Azure Databricks? Azure Databricks is an exciting new service in Azure for data engineering, data science, and AI. Built on Apache Spark, Azure Databricks is capable of processing and modeling data of all sizes and shapes, and it integrates seamlessly with other services in Azure such as Azure Data Lake Store, Azure SQL Data Warehouse, Azure Cosmos DB, Azure Event Hub, and Azure Data Factory.

What will my organization gain from the Azure Databricks Workshop?

In this 1-day, on-site workshop, up to 10 attendees from your organization will receive a detailed overview of Azure Databricks, giving them an understanding of where and how it fits into the Azure Data Platform. BlueGranite consultants will lead a demonstration of the core functionality within Azure Databricks along with hands-on labs and a use-case discovery.

This expertly designed framework will leave attendees with the knowledge they need to take full advantage of Azure Databricks capabilities and set them up for success with the platform.

WORKSHOP SUMMARY

- *Explore the capabilities of the Azure Databricks workspace environment*

- *See how Azure Databricks fits into the existing Azure Data Platform*

- *Get hands-on experience with Azure Databricks through a collection of interactive labs*

- *Fixed cost for the 1-day workshop, including all travel, materials, and on-site sessions*

- *Intended for data engineers, data scientists, business analysts, data analysts, business users, and BI/ DW teams*
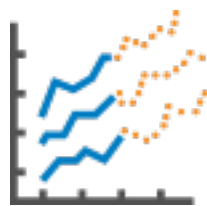

ABOUT US

At BlueGranite we help our clients utilize data as a strategic asset, delivering data architecture and data integration solutions to drive insights and analytics across your organization. Our solutions monitor trends, measure performance, and provide real-time analytics for rapid, informed decision making. We leverage industry leading technology from Microsoft to build modern data platforms that reduce operating costs, increase market share, improve workforce efficiency, and so much more.

Gain a competitive advantage through the integration of multiple internal and external data sources, allowing your organization to uncover insights through straightforward, easy-to-use analytics solutions. When empowered with relevant and timely insights, you will be equipped to make better decisions, resulting in improved business performance. We're much more than technology specialists — we're trusted advisers. Our team's deep expertise and passion for what we do combined with our collaborative approach help you get the insights you need quickly and easily.

DISCOVER

Gain an understanding of use cases, vision and strategy for data and analytics; explore new and innovative solutions to gain insights from data and improve data availability. Through workshops, proof-of-value engagements, and QuickStarts, we can help you begin your journey.

CREATE

Make it real! BlueGranite will architect, build and deploy new BI and analytics solutions to address pain and realize the projected gain for your organization. We'll combine our deep experience with the latest tools for data and analytics for both cloud and on-premise scenarios.

REALIZE

Extend the value of your analytics solutions through support, maintenance, and enhancement. Change organizational culture through the establishment of a Center of Excellence complete with governance initiatives from data management to self-service BI.
