

Your *all-in-one platform*
to engage, reward, and retain talent

SelfDrvn partners with Nettium to bring Talent Engagement to life

SelfDrvn is a Workforce Management & Talent Engagement platform to engage, reward, and retain employees. This SaaS platform utilises gamification, social media, big data and AI.

With SelfDrvn, Nettium were able to increase their headcount, customer satisfaction, quality index, and productivity index among other things. Nettium's placement in the saturated technology market meant their growth was hampered by challenges in attracting and retaining technical talent. Nettium needed to entice talent organically, as well as ensure the talent they hired were engaged to perform at their best.

SelfDrvn deployed a comprehensive talent management solution driving

performance, learning, engagement and collaboration.

The talent management solution drove world-class results such as an increase in revenue of 21x in 8 years, a 250% increase in employee productivity, decreased employee turnover, extremely quick customer response times, and amplified employee engagement.

Microsoft Teams and Azure were foundational to the success of this solution deployment. Security and scalability were non-negotiables for SelfDrvn, driving them to enlist the world-class products that Microsoft have developed.
