

Quick Windows Virtual Desktop

ABOUT 4MSTech

4MSTech is an IT Services company, focused on Microsoft Cloud Solutions infrastructure. We offer Professional, Managed and Adoption Services for Microsoft 365 and Azure and we are experienced with large complex projects on customers from several segments.

WHAT WE OFFER

Our Windows Virtual Desktop solution allows provisioning complex WVD environments quickly and secure, using Azure resources, reducing costs and management effort. All setup is completed using scripts and configured with best practices.

Thanks to basic, well known Azure infrastructure components, WVD solution is easily implemented. Azure allows hybrid Cloud environments, extending Public Cloud Services to on-premises legacy IT environment.

Windows Virtual Desktop allows Windows 10 multisection as a key differentiator, where applications developed for desktop run on a similar environment, reducing effort to customize images.

All Azure standard resources, like Compute, Storage Accounts, Networking are used. WVD is an Azure Service, scalable, available and secure, where configuration is at Azure Portal.

WHAT OUR CUSTOMERS ARE SAYING

“With COVID pandemic times, we had to prepare a Virtual Desktop environment urgently and with 4MSTech help, and using WVD, we quickly made it available for more than 500 users working remotely.”

– André Ceron, IT Infrastructure Manager, Raízen

Microsoft Azure – Windows Virtual Desktop

Microsoft Azure is an increasingly set of Cloud services to help your organization face business challenges. It is the freedom to create, manage and implement applications on a global network using your favorite tools and structures.

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
