atimeghost

Project time tracking for Office 365.

Record right from your Feed

Drag Office 365 events like Outlook
Calendar entries from the Feed right onto
your projects. Drag and drop and done!
Time recorded.

Work in Teams

Install timeghost directly in Microsoft Teams and place it right in the middle of your activities, chats and conversations of your virtual workplace.

Benefit from diverse output

Use the dasboard for project overviews and predefined templates for time reports, invoices and other documents. Define and personalize further with Microsoft Power Automate (Flow).
