**App Factory**
is a structured, comprehensive framework to assess, migrate and modernize applications to the Microsoft Azure platform. Based on industry best-practice it gets you to Azure fast, whilst reducing risk.
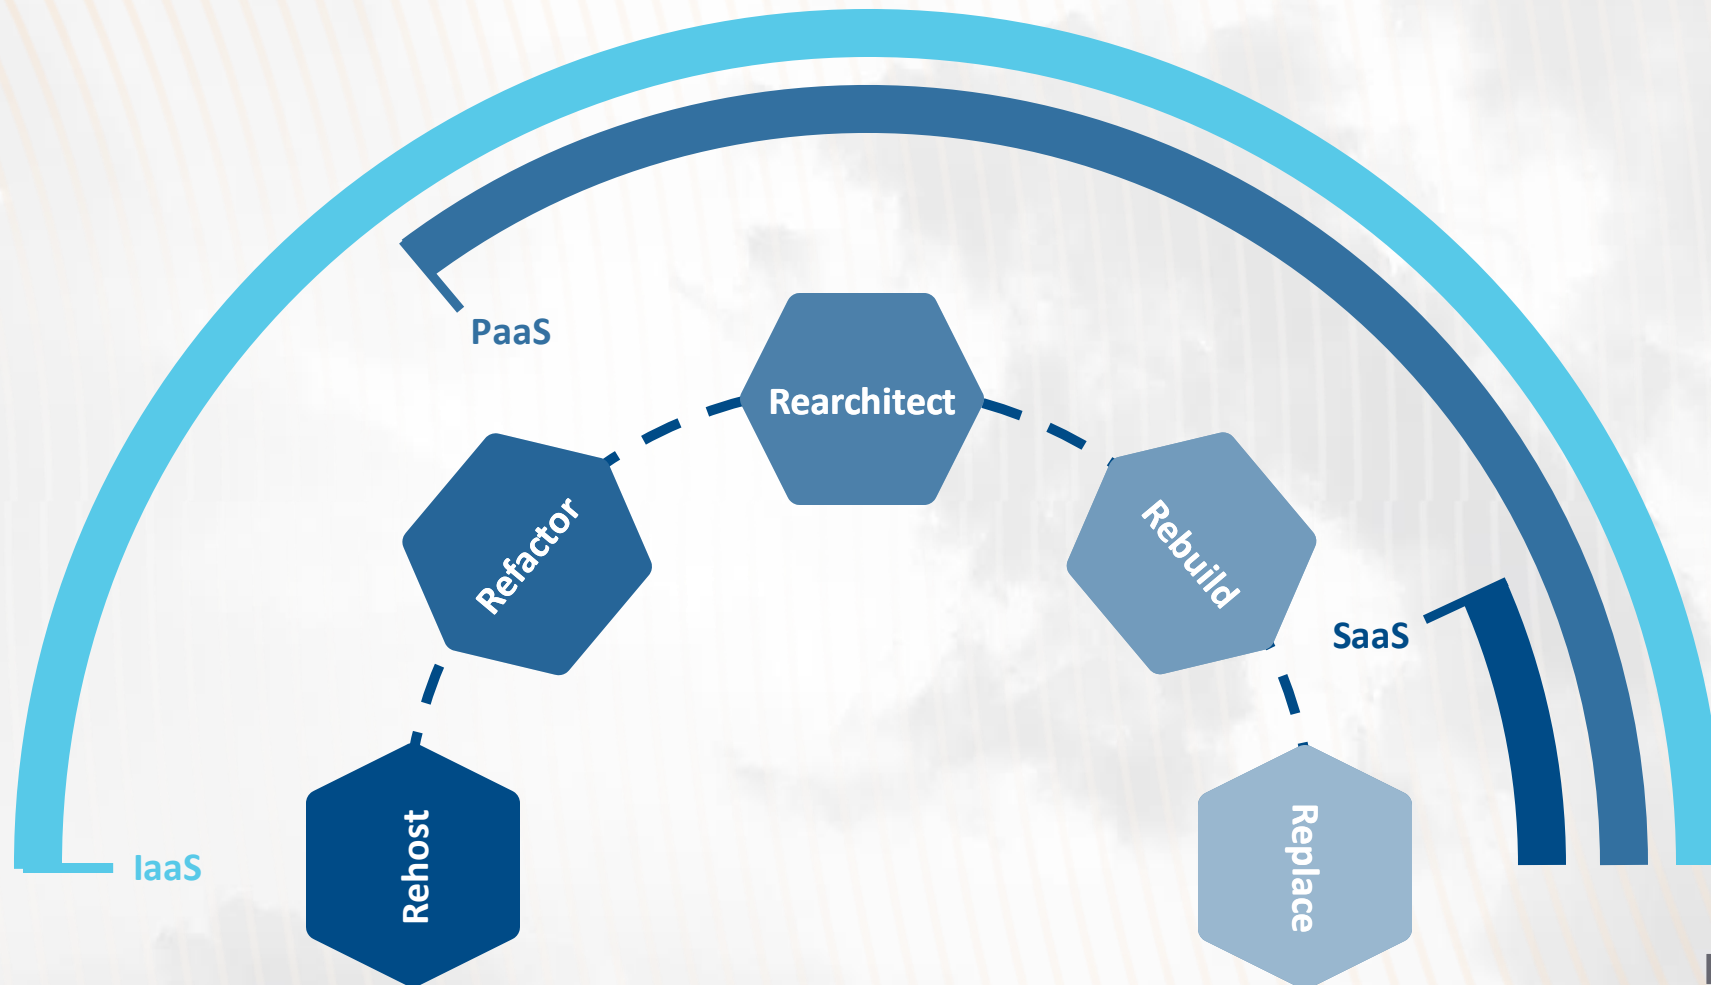

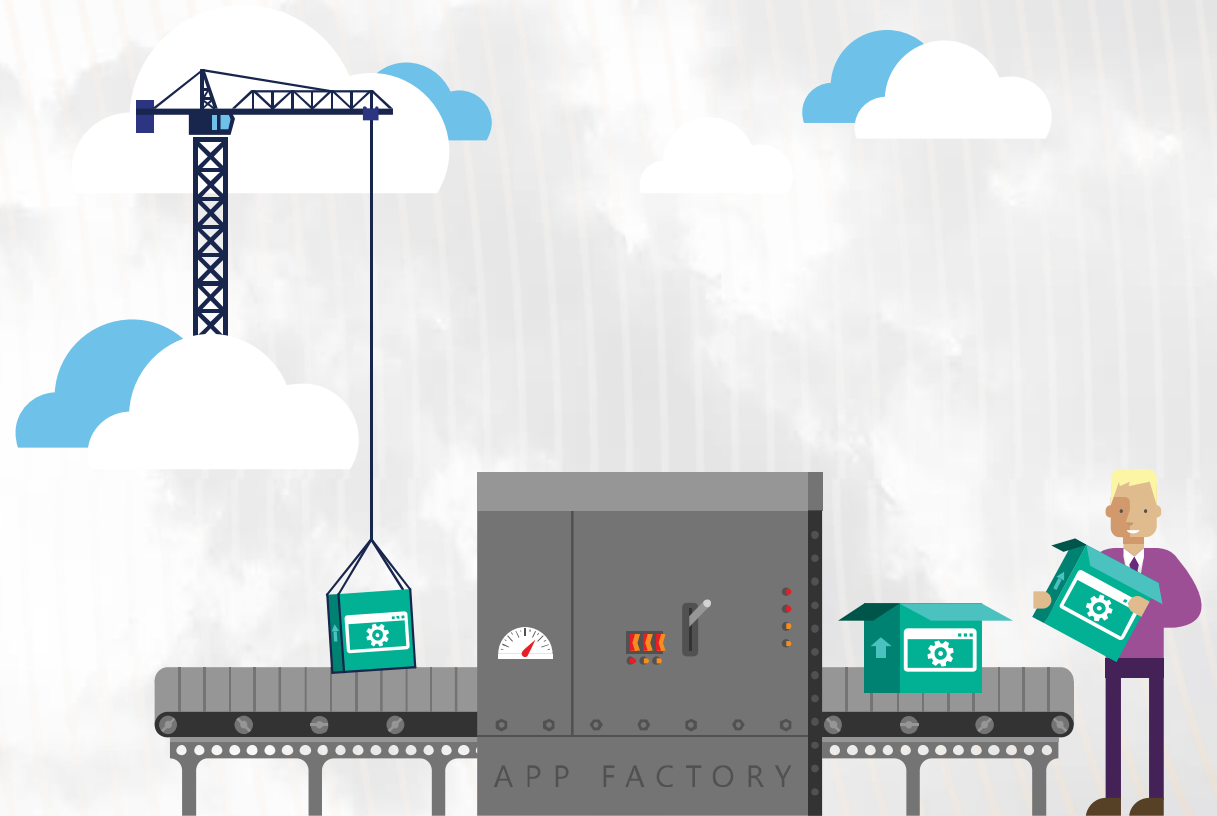

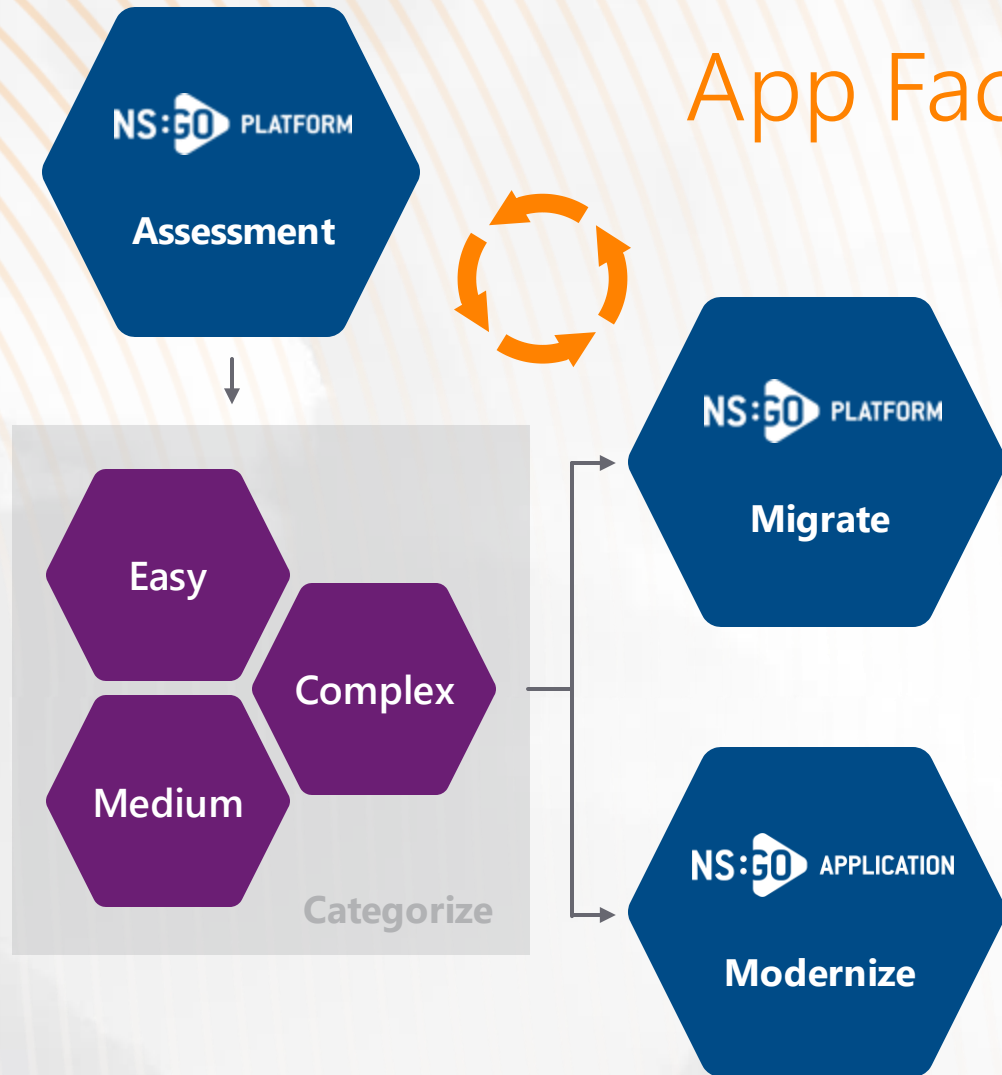

App Factory – Cloud Service Models
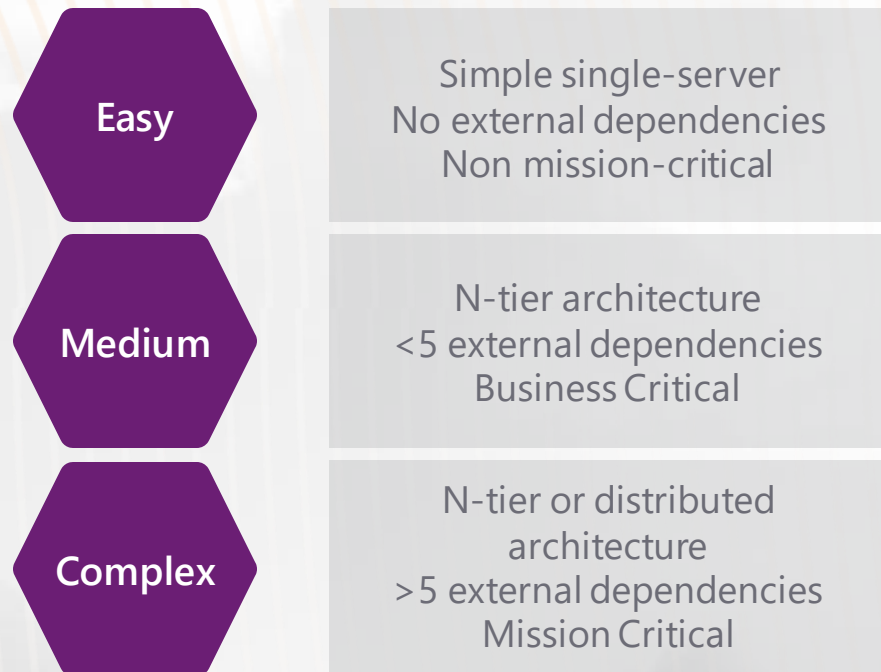

App Factory – Migration Motions

App By App Migration

Easy
Simple single-server
No external dependencies
Non mission-critical

Medium
N-tier architecture
<5 external dependencies
Business Critical

Complex
N-tier or distributed architecture
>5 external dependencies
Mission Critical
