

Lead the post-pandemic workplace with Lingaro and Microsoft

The move of employees to remote work has accelerated workplace digitalization and exponentially increased the number of data points representing how people work, collaborate, and engage in companies.

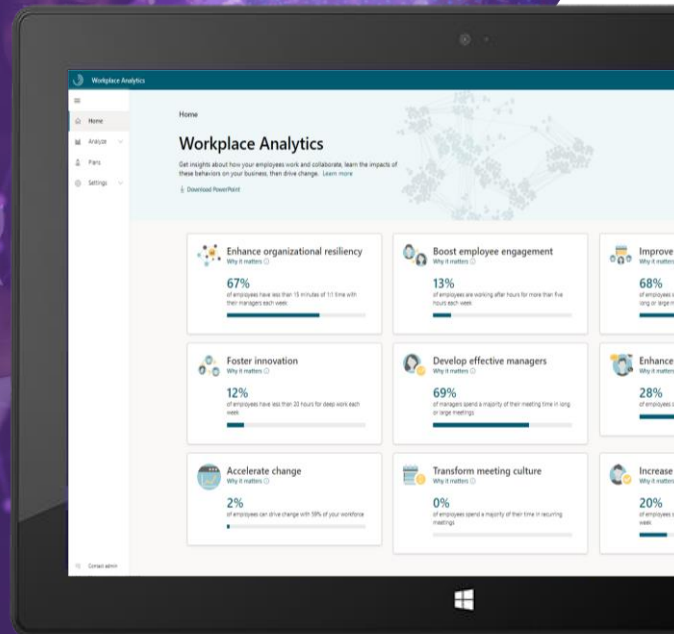

To adapt to constant disruption in the workplace, business leaders can unleash the value of this powerful data using insights from everyday work to explain, predict, drive, and measure the impact of day-to-day actions on business outcomes.

Let Workplace Analytics turn your Office 365 collaboration data into powerful new insights for enterprise productivity

Workplace Analytics leverages Office 365 collaboration data to deliver powerful new insights for enterprise productivity. It provides a way for a company to understand organization-wide communication behaviours and collaboration patterns and how they influence productivity and corporate performance.
