

# MICROSOFT TEAMS VOICE MIGRATION ASSESSMENT

Is your organization considering migrating to [Microsoft Teams Voice](#) but not sure where to start? As a cloud solution provider and Microsoft Gold Partner, [Datalink Networks](#) can assess your IT infrastructure and business objectives, provide you with a detailed project plan, and implement actionable recommendations to accelerate your organizations adoption of Microsoft Teams Voice.

## Assessment Process

- **Step 1:** We will assess your organization's IT infrastructure to view your current communication environment, understand your business objectives, detect your pain points, and determine Microsoft licensing requirements.
- **Step 2:** We will provide you with a project plan that will outline the scope of the migration, timeline, budget, and core services Datalink Networks will provide you before, during, and after migration.
- **Step 3:** We will determine the next steps to implement actionable recommendations and accelerate the implementation and adoption of Microsoft Teams Voice.

# BENEFITS OF ASSESSMENT

1. Understand your IT environment to align your IT objectives to your organization's goals
2. Receive valuable recommendations from experienced IT professionals to design a detailed project plan
3. Accelerate the implementation and adoption of Microsoft Teams Voice within your organization to enhance your unified communications
