INCREASE AGILITY & SPEED / RATIONALIZE SAP INFRASTRUCTURE COSTS WITH SAP ON AZURE
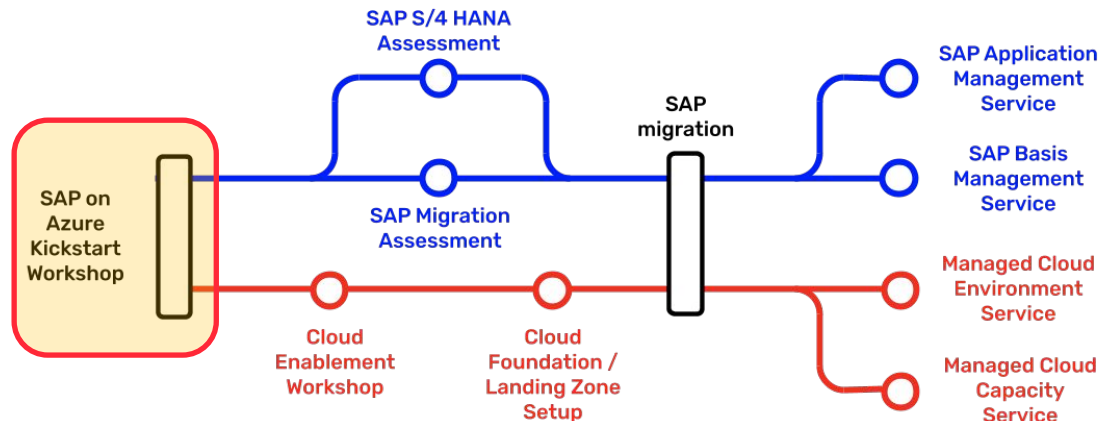

SAP ON AZURE JOURNEY FROM ASSESSMENT TO PRODUCTION

Organisations using SAP are typically facing

- Pressure to rationalize costs for dev / test workloads
- Pressure to migrate to HANA due to the End-of-Life of R/3 in 2027
- Challenges to provide new business capabilities at the pace expected by users

SAP On Azure helps solve these challenges

- **Rationalize operating costs** and provide faster time to value with easy provisioning / deprovisioning and scaling of SAP environments using automation
- Operate on **HANA-certified hardware** to enable pathways for to run S/4 and other environments based on HANA
- **Enable advanced development scenarios** using e.g. Data & AI capabilities provided by Azure
